Parish, 1985-11-15 Through interviews with city residents Martin King Whyte and William L Parish provide a unique survey of urban life in the last decade of Mao Zedong s rule They conclude that changes in society produced under communism were truly revolutionary and that in the decade under scrutiny the Chinese avoided ostensibly universal evils of urbanism with considerable success At the same time however they find that this successful effort spawned new and equally serious urban problems bureaucratic rigidity low production and more **Contemporary Memoirs of Russia from the year 1727 to 1744. ... in Russia and the Soviet Union Yaacov Ro'i, 2016-02-11 The main focus of this book is Jewish life under the Soviet regime. Higher Education in Russia, 1855-1900 Christine Johanson, 1987-01-01 Unlike contemporary Soviet and Western accounts which emphasize the involvement of educated women in the revolutionary movement, Christine Johanson investigates the relationship between developments in women's education and domestic politics of the post Crimean War era. The author shows how the particular nature of autocratic rule under Alexander II facilitated the establishment of university level courses for women and demonstrates that Russian women who cooperated with the government in order to increase their educational opportunities far outnumbered the female revolutionists who sought to overthrow it. And while acknowledging that Russian radicalism gave enormous encouragement to women's pursuit of university study, this book shows that it was the support of progressive statesmen and academics which allowed the creation of higher educational facilities for women. The attitudes, aspirations and frustrations of women who enrolled in these educational facilities are also examined. Considerable attention is given to the training and practice of female physicians and to the testing of their skills and commitment to social service in tradition bound peasant villages and the field hospitals of the Russo Turkish war. The concluding chapter explored the conservative reaction following the assassination of Alexander II and the subsequent closure of women's advanced educational facilities. Russian Modernity D. Hoffmann, Y. Kotsonis, 2000-07-05

Russian Modernity D. Hoffmann, Y. Kotsonis, 2000-07-05 Russian Modernity places Imperial and Soviet Russia in a European context. Russia shared in a larger European modernity marked by increased overlap and sometimes merger of realms that had previously been treated as discrete entities: the social and the political, state and society, government and economy, and private and public. These were attributes of Soviet dictatorship but their origins can be located in a larger European context and in the emergence of modern forms of government in Imperial Russia.

Libertinage in Russian Culture and Literature Alexei Lalo, 2011-09-09 Much of the previous scholarship on Russia's literary discourses of sexuality and eroticism in the Silver Age was built on applying European theoretical models from psychoanalysis to feminist theory to Russia's modernization. This book argues that at the turn into the twentieth century Russian popular culture for the first time found itself in direct confrontation with the traditional high cultures of the upper classes and intelligentsia, producing modernized representations of sexuality. This Russian tradition of conflicted representations heretofore misassessed by literary history emerges as what Foucault would call a full blown bio history of Russian culture: a history of indigenous representations of sexuality and the eroticized body capable of innovation on its own terms, not just those derivative from Europe. Fulton, Ju-Chan Fulton, 2015-03-04 An anthology of contemporary Korean fiction including *The Wife and Children*, *The Post Horse*, *Curse Mountains*, *Kapitan Ri*, *The Winter* and *A Dream of Good Fortune*. **Men in Contemporary Russia** Rebecca

Kay,2016-12-05 Rebecca Kay assesses how men in post Soviet Russia are represented through media and popular discourses Using case studies she explores the challenges which have arisen for men since 1991 and the ways in which their responses are shaped by and viewed through the prism of widely accepted attitudes towards gender The lives and concerns of men in provincial Russia are examined through ethnographic fieldwork combining extensive participant observation with in depth interviews The book reveals how individual men strive to maintain a sense of equilibrium between the activities in which they are engaged and the ways in which they are perceived both by others and by themselves The findings of the research have produced significant areas of contrast and comparison with the author s earlier work on women This is drawn out throughout the book placing the study of Russian men in a broader gendered context The issues raised by the men mirror concerns discussed in men s studies literature and popular discourse beyond Russia The book is therefore of interest to a wider international audience as well as contributing to ongoing interdisciplinary debates in Russian Studies Anthropology Sociology and Human Geography addressing the need for new approaches to understanding post Socialist change **Social**

Reader's Guide to Contemporary Literature William Swan Sonnenschein,1896 *The Politics of Poverty in Contemporary Russia* Ann-Mari Sätre,2019-01-15 This book provides an overview of poverty and well being in Russia Increasing poverty rates during the 1990s were followed by greater attention to social policies in the 2000s and increased efforts to engage people in socially oriented NGOs and encourage them to contribute to the fulfillment of social aims What impact did these developments have on the prevalence of poverty in contemporary Russian society Tracing continuities from the Soviet system alongside recent developments such as the falling price of oil economic sanctions and changes in directions of social policy this book explores the impact of poverty inequality and social programmes The author examines the agency of people living in poverty and those engaged in social policy using official statistics survey data and interviews from four Russian regions to explain the reasons and consequences of poverty and people s attempts to get out of it The approach is

based on institutional theory complemented by Amartya Sen's capability approach highlighting the importance of agency and an institutional framework as a means for change. A timely book that will be of interest to students of contemporary Russian politics as well as those engaged in social policy issues. The Doctor in Literature: Private life Solomon Posen, 2005. Bubonic Plague in Early Modern Russia John T. Alexander, 2003. John T. Alexander's study dramatically highlights how the Russian people reacted to the plague and shows how the tools of modern epidemiology can illuminate the causes of the plague's tragic course through Russia. Bubonic Plague in Early Modern Russia makes contributions to many aspects of Russian and European history: social, economic, medical, urban, demographic and meteorological. It is particularly enlightening in its discussion of eighteenth-century Russia's emergent medical profession and public health institutions and overall should interest scholars in its use of abundant new primary source material from Soviet, German and British archives.

Medical and Health Care Books and Serials in Print, 1987. Life at Sea Monique Layton, 2017-01-28. In *Life at Sea*, anthropologist Monique Layton draws on her experiences on modern cruise ships to examine the evolution of sailing from the Age of Exploration to the Age of Tourism. Using historical records and the reports of people who once went to sea through necessity, curiosity or adventure, she shows the common events that have shaped their voyages and the ingenuity, courage and determination that characterize mankind's connection with the all-surrounding sea. The book's topics range from the dependence on the wind and manpower through the invention of devices to determine location at sea to modern maritime technology, from the devastation of scurvy and starvation on early ships of exploration and trade to the luxuries of omnipresent food on board, medical treatment and professional entertainment available on behemoth cruise ships. The book also delves into the deeper meaning of seafarers' rituals and their harsh lives with severe discipline and few rewards. These aspects, along with the horrors of the slave trade and naval warfare, the harrowing crossings of emigrants and convicts, the ambiguities of piracy and the economics of global trade, all show the contradictory elements that have consistently shaped travel by sea.
