since 1992 Bain,1955-01-01 This book addresses the relationship between the Russian Federation and Cuba from 1992 to the present the period since the disintegration of the Soviet Union Mervyn J Bain analyzes the reasons why the relationship between Havana and Moscow continues to thrive even after the end of the Cold War and the death of international socialism He argues that there are five main areas to be studied in order to understand why the Russians and Cubans have maintained close cultural and political ties well into the twenty first century Bain first explores the effects the disintegration of the Soviet Union had on the relationship between Moscow and Havana in the years since 1992 He goes on to describe how the two countries have adapted or failed to adapt to the New World Order and the ways in which their foreign policy have changed the shape of their dialogue with each other The third and fourth sections detail both the impact of globalization and the increased cultural economic and military exchange between Russians and Cubans Bain concludes by showing readers the importance of placing the Russian Cuban relationship in an international context especially highlighting the influence of the United States over it This book will be of interest to those interested in post Soviet Russian foreign policy Cuban foreign policy and international relations The 1999-2000 Elections in Russia Vicki L. comprehensive overview of Russia's foreign policy directions this handbook brings together an international team of scholars to develop a complex treatment of Russia's foreign policy. The chapters draw from numerous theoretical traditions by incorporating ideas of domestic institutions, considerations of national security and international recognition as sources of the nation's foreign policy. Covering critically important subjects such as Russia's military interventions in Ukraine and Syria, the handbook is divided into four key parts. Part I explores the social and material conditions in which Russia's foreign policy is formed and implemented. Part II investigates tools and actors that participate in policy making, including diplomacy, military, media, and others. Part III provides an overview of Russia's directions towards the United States, Europe, Asia, the Middle East, Eurasia, and the Arctic. Part IV addresses the issue of Russia's participation in global governance and multiple international organizations, as well as the Kremlin's efforts to build new organizations and formats that suit Russia's objectives. The Routledge Handbook of Russian Foreign Policy is an invaluable resource to students and scholars of Russian Politics and International Relations, as well as World Politics more generally.

History of International Relations and Russian Foreign Policy in the 20th Century (Volume II) Boris F. Martyn, Anatoly V. Torkunov, William C. Wohlforth, 2020-01-08. This second volume, focusing on 1945-1991, unpacks the reasons for the Cold War and takes the reader through its ebbs, flows, and unexpected end. How did the allies of World War II become enemies? The authors argue that the Cold War controversy could have been avoided or at least mitigated had the sides been guided by healthy pragmatism instead of ideology and megalomania. Contradictory relations between the superpowers, regional wars and conflicts, and the scramble to escape a nuclear Holocaust all of this reads sometimes as a good detective story. Perestroika and Glasnost, useful as they might be, came too late to radically improve the poisonous atmosphere of enmity in East-West relations. The end of the Cold War did not mean the end of rivalry. Good will in this case did not guarantee good outcomes. As civilizational, cultural, personal, and religious contradictions begin to replace economic and social divides, we need to be fully aware of our past if we are to do our best to resolve these issues.

The Sources of Russian Aggression Sumantra Maitra, 2024-04-30. Moscow indulges in the military use of force and balancing behaviour only when it perceives its interests to be threatened but seeks to preserve, uphold, or return to the status quo the moment the threats subside or are neutralized by balancing actions, acting more as a security maximizer than a power maximizer. The Sources of Russian Aggression. Is Russia a Realist? Power employs a qualitative research design and case study method, relying on secondary literature, military sources, and observed and recorded news. This evidence relies on Russian strategic actions and not Russian rhetoric. The evidence explored suggests that Russia balances against perceived threats and that Russian use of force is directly proportional to any strategic and material loss. Alternatively, Russia behaves like a status quo power when the perceived threat subsides. Also, Maitra explains how Russian military aggression is focused on geopolitical balance and has narrow strategic aims, and Russia either lacks the will and/or capability or both to be an expansionist or occupying power. Maitra concludes that Russia is inherently a reactive

power with limited regional aims which are not commensurate with an aspiration of a continental hegemony The findings have future policy relevance for European British and American security as the U S grows increasingly isolationist and NATO and EU rift widens

Russian Foreign Policy under Dmitry Medvedev, 2008-2012 Valerie Pacer, 2015-11-19 Although the presidency of Dmitry Medvedev is often seen as a continuation of Vladimir Putin's presidency with the same policies applied in the same way this book disagrees arguing that Medvedev's foreign policy was significantly different from Putin's The book considers especially the relationship between Russia and the Euro Atlantic security configuration including both NATO and the Organisation for Security and Co operation in Europe a relationship of great importance to Russia given constant attention It discusses a wide variety of issues including frozen conflicts security co operation and nuclear weapons reductions highlights the different tone and approach under Medvedev exemplified especially by his draft European Security Treaty and shows how after Putin's return to the presidency there has been a shift in foreign policy with much greater emphasis on influencing Russia's immediate neighbours and on Eurasian union and less emphasis on rapprochement and co operation

Palestine in EU and Russian Foreign Policy Malath Alagha, 2016-10-04 The establishment of a Palestinian state has long been a strategic objective of EU and Russian foreign policy in the Middle East However over a decade after the creation of the road map the establishment of an independent Palestinian state has still not been achieved Palestine in EU and Russian Foreign Policy uses the school of constructivism to provide a new understanding of EU and Russian foreign policy It explores the failure of these global actors to speed up the process of establishing a Palestinian state despite this being a strategic objective and top priority of their involvement in the Middle East peace process The book then analyses the role of identity and self other perception in the making of EU and Russian foreign policy towards the Middle East peace process It is argued that Palestinian statehood provides a telling empirical example of how and to what extent the search for global actorness as a matter of international identity informs foreign policy making by global actors The book then proceeds to discuss why the EU and Russia are so eager to be involved in initiating a peace settlement Offering a new understanding of foreign policy making by global players in Middle Eastern politics this book will appeal to students scholars and policymakers working in International Relations and European Russian and Middle Eastern studies
