Long Life Essays And Other Writings:

Long Life Mary Oliver,2005-03-02 Poets must read and study but also they must learn to tilt and whisper shout or dance each in his or her own way or we might just as well copy the old books But no that would never do for always the new self swimming around in the old world feels itself uniquely verbal And that is just the point how the world moist and bountiful calls to each of us to make a new and serious response That s the big question the one the world throws at you every morning Here you are alive Would you like to make a comment This book is my comment from the Foreword **Twelve Great**

Spiritual Writers Liz Hoare,2020-01-16 Liz Hoare s list of twelve great spiritual writers includes famous and lesser known women whose writings have touched her heart illuminated her mind and sharpened her spiritual vision Liz believes they can do the same for you which is why she has written this book Each of these great writers novelists poets preachers philosophers and theologians contributes something special to our understanding of the spiritual life today With key extracts from each writer s best loved books and with suggestions for personal reflection or group discussion here is an exceptionally rich resource that you will want to return to time and time again wherever you may be on your journey **Owls and Other**

T. Davis,K. Womack,2016-01-23 Davis and Womack investigate the emerging gaps between literary scholarship and the reading experience The idea of reconciling the void the locus of our sociocultural disillusionment and despair in an uncertain

world concerns explicit artistic attempts to represent the ways in which human beings seek out meaning hope and community *A Study Guide for Mary Oliver's "The Eskimos Have No Word for War"* Gale, Cengage Learning, 2016 The Book of Nature Barbara Mahany, 2023-03-21 We live inside a nautilus of prayer if only we open our senses and perceive what is infused all around Throughout millennia and across the monotheistic religions the natural was often revered as a sacred text By the Middle Ages this text was given a name The Book of Nature the first best entry point for encounter with the divine The very act of reading the world of focusing our attention on each twinkling star and unfurling blossom humbles us and draws us into sacred encounter As we grapple to make sense of today s tumultuous world one where nature is at once a damaged and damaging source of disaster as well as a place of refuge and retreat we are called again to examine how generously it awaits our attention and devotion standing ready to be read by all Weaving together the astonishments of science the profound wisdom and literary gems of thinkers poets and observers who have come before us and her own spiritual practice and gentle observation Barbara Mahany reintroduces us to The Book of Nature an experiential framework of the divine God s first revelation came to us through an ongoing creation one that through stillness and attentiveness to the rumblings of the heavens the seasonal eruptions of earth the invisible pull of migration of tide and of celestial shiftings draws us into sacred encounter We needn t look farther for the divine **A View from Life's Edge** Corinne G. Dempsey, 2025-10-14 In today s death denying success driven society older women s countercultural voices call for our attention Recounting emotionally charged conversations from across the world A View from Life s Edge reflects on women s comfort with impending death gratitude forged by catastrophe and humility that makes way for wonder Speaking with nearly one hundred women over the age of eighty in four locations northern Iceland south India a retirement community in California and a convent in upstate New York Corinne G Dempsey finds that as we near life s end we gain clarity about what really matters in life Women s stories and reflections in which sorrow and loss are central to a life well lived help to expand our sense of what it means to be human Drawing on the paradoxical wisdom of world religions and mystical traditions to frame late life tendencies across cultures Dempsey portrays these accounts as a corrective to mainstream values that defeat and diminish us Dempsey encourages us to turn away from ageist fears rather than denying life s inevitable end Learning from older women s perspectives we might move their edge of life views closer to the center *The Best American Poetry 2012* Mark Doty, 2012-09-18 Mark Doty brings the vitality and imagination that illuminate his own work to his selections for the twenty fifth volume in the Best American Poetry series He has chosen poems of high moral earnestness and poems in a comic register poems that tell stories and poems that test the boundaries of innovative composition This landmark edition includes David Lehman s keen look at American poetry in his foreword Mark Doty s gorgeous introduction and notes from the poets revealing the germination of their work Over the last twenty five years The Best American Poetry has become an annual rite of the poetry world and this year s anthology is a welcome and essential addition to the series SHERMAN ALEXIE

Lenard-Cook, 2013-05-31 Every person has a story to tell but few beginners know how to uncover their story's narrative potential And despite a growing interest among students and creative writers few guides to the genre of memoirs and creative nonfiction highlight compelling storytelling strategies Addressing this gap the authors provide a guide to memoir writing that shows how an aspiring writer can use storytelling tools and tactics borrowed from fiction to weave personal experiences into the shape of a story *Woods & Words* Sara Holly Ackerman, 2025-04-01 This inspiring and enriching picture book biography explores the life and work of beloved poet Mary Oliver in its own uniquely lyrical way shining a light on Mary's belief that there are treasures and poems all around us in nature waiting to be discovered Young Mary Oliver spent all the time she could outdoors noticing natural wonders like alluring birdsong velvety leaves and glittering beams of sunlight There were treasures all around if you paid attention Eventually she began writing about those treasures filling up stacks of notebooks and capturing the world around her There were always poems if you paid attention As Mary grew up and gained acclaim for her poetry some critics said her poems were too simple too ordinary But Mary believed poems were for everyone So she wrapped herself in woods and in woods and kept on searching for what else and where else a poem might be

Mary Oliver,2019-10-29 One of O The Oprah Magazine s Ten Best Books of the Year The New York Times bestselling collection of essays from beloved poet Mary Oliver There s hardly a page in my copy of Upstream that isn t folded down or underlined and scribbled on so charged is Oliver s language Maureen Corrigan NPR s Fresh Air Uniting essays from Oliver s previous books and elsewhere this gem of a collection offers a compelling synthesis of the poet s thoughts on the natural spiritual and artistic worlds The New York Times In the beginning I was so young and such a stranger to myself I hardly existed I had to go out into the world and see it and hear it and react to it before I knew at all who I was what I was what I wanted to be So begins Upstream a collection of essays in which revered poet Mary Oliver reflects on her willingness as a young child and as an adult to lose herself within the beauty and mysteries of both the natural world and the world of literature Emphasizing the significance of her childhood friend Walt Whitman through whose work she first understood that a poem is a temple a place to enter and in which to feel and who encouraged her to vanish into the world of her writing Oliver meditates on the forces that allowed her to create a life for herself out of work and love As she writes I could not be a poet without the natural world Someone else could But not me For me the door to the woods is the door to the temple Upstream follows Oliver as she contemplates the pleasure of artistic labor her boundless curiosity for the flora and fauna that surround her and the responsibility she has inherited from Shelley Wordsworth Emerson Poe and Frost the great thinkers and writers of the past to live thoughtfully intelligently and to observe with passion Throughout this collection Oliver positions not just herself upstream but us as well as she encourages us all to keep moving to lose ourselves in the awe of the unknown and to give power and time to the creative and whimsical urges that live within us **Prose Poetry in Theory and Practice** Anne

Caldwell,Oz Hardwick,2022-06-01 Prose Poetry in Theory and Practice vigorously engages with the Why and the How of

prose poetry a form that is currently enjoying a surge in popularity With contributions by both practitioners and academics this volume seeks to explore how its distinctive properties guide both writer and reader and to address why this form is so well suited to the early twenty first century With discussion of both classic and less well known writers the essays both illuminate prose poetry s distinctive features and explore how this outsider form can offer a unique way of viewing and describing the uncertainties and instabilities which shape our identities and our relationships with our surroundings in the early twenty first century Combining insights on the theory and practice of prose poetry *Prose Poetry in Theory and Practice* offers a timely and valuable contribution to the development of the form and its appreciation amongst practitioners and scholars alike Largely approached from a practitioner perspective this collection provides vivid snapshots of contemporary debates within the prose poetry field while actively contributing to the poetics and craft of the form

Grand Finales Susan Gubar, 2025-06-10 One of our most formidable literary critics explores how nine women artists flourished creatively in their final acts In 2008 academic and scholar Susan Gubar was told by a trusted oncologist that she had only a few years left to live Though she outlived that dire prognosis this brush with mortality refocused her attention on the boons of a longevity she did not expect to experience She began to think In the last years of our lives can we shape and change our creative capabilities The resulting volume *Grand Finales* answers this question with a resounding yes Despite the losses generally associated with aging quite a few writers painters sculptors musicians and dancers have managed to extend and repurpose their creative energies Gubar spotlights very creative old ladies writers painters sculptors musicians and dancers from the past and in our times Each of *Grand Finales* nine riveting chapters features women artists George Eliot Colette Georgia O Keefe Isak Dinesen Marianne Moore Louise Bourgeois Mary Lou Williams Gwendolyn Brooks and Katherine Dunham who transformed the last stage of existence into a rousing conclusion Gubar draws on their late lives and works to suggest that seniority can become a time of reinvention and renewal With pizzazz bravado and geezer machismo she counters the discrediting of elderly women and clarifies the environments relationships activities and attitudes that sponsor a creative old age

[Replenish](#) Sandra Postel, 2017-10-10 Nothing is more important to life than water and no one knows water better than Sandra Postel *Replenish* is a wise sobering but ultimately hopeful book Elizabeth Kolbert Remarkable New York Times Book Review Clear eyed treatise Postel makes her case eloquently Booklist starred

review An informative purposeful argument Kirkus We spend billions of dollars on irrigation dams sanitation plants and other feats of engineering to control water for our own prosperity What if the answer was not control but replenishment Sandra Postel takes readers around the world to explore water projects that work with rather than against nature s rhythms Forest rehabilitation is safeguarding drinking water farmers are planting cover crops to reduce polluted runoff and sponge cities are capturing rainwater to curb urban flooding Postel argues that efforts like these will be essential as we adjust to a hotter wilder climate Will we continue to fight the water cycle endangering ourselves and the planet or recognize our place in it and take advantage of the inherent services nature offers
