Desert road archaeology in ancient Egypt and beyond Heiko Riemer, 2013-01-01 The Disabled Hiker's Guide to Northern California Syren Nagakyrie, 2024-09-03 The Disabled Hiker's Guide to Northern California covers the northern region of California from approximately Santa Cruz Monterey to the Oregon state line This guide includes Drive up Adventures Places that can be reached via car or accessible transportation that offer sweeping views or beautiful surroundings without having to go out on trail Where trails that meet the guidelines are also available they will be referenced and a trail guide provided Wheelchair Accessible Trails Descriptions of verified wheelchair accessible trails Trails will be reviewed for adherence to accessibility guidelines and inaccessible features will be noted this is a fairly common occurrence Descriptions of trail surface grade and detailed directions will also be provided Wheelchair users need more information than simply listing whether a trail is wheelchair accessible or not Hiking Trails Listings will include trails with varying difficulty levels The majority of trails will be in locations associated with developed recreations areas There will also be options for backcountry or wilderness area hikes as well as lesser known trails **The Long Road's End** Ian McLaren, 2012-08-21 An infamous drug baron is tortured before being coldly executed in his London home The body of a drug dealer who appears to have met a similar fate is found in the dark waters of Loch Ness As more bodies are found Detective Superintendent Jock Anderson of Inverness CID fears that he is hunting a calculating serial killer but although he is suspicious that perhaps more than one murderer is at work there are few clues few leads to follow until Jock is provided with some unusual assistance from a novel source **Lost Highways, Embodied Travels: The Road Movie in American Experimental Film and Video** Kornelia Boczkowska, 2023-02-06 Often identified as one of the most genuine and enduring American film genres the road movie has never been explored in the context of experimental filmmaking To fill this gap Lost Highways Embodied Travels provides the first book length study of over eighty unique and often obscure films and videos and situates them within the corporeal turn in American avant garde cinema so far mostly associated with body genres and sexually explicit films Drawing on unpublished archival materials the book offers a fresh take on both past and current practices of the experimental film community for scholars students makers and film buffs *Somatic Cell Nuclear Transfer* Peter Sutovsky, 2007-12-22 When I was first approached to edit the present volume I was somewhat reluctant to undertake this humbling task because most of my own scientific expertise is derived from studies of mammalian fertilization rather than somatic cell nuclear transfer SCNT However in the last ten years I was very fortunate to train and collaborate and communicate with a number of distinguished donors many of whom kindly agreed to contribute to the present volume This experience made me appreciate that the understanding of cellular and molecular events during and after SCNT is deeply rooted in our knowledge of fertilization of mammalian ovum by the spermatozoon to which I prefer to refer to as natural fertilization not to say that SCNT should be regarded as unnatural fertilization Unique cellular events arising from SCNT have no parallel in natural fertilization and

early pre implantation development The list includes the requirement of donor cell nuclear remodeling disposal of donor cell organelles the possibility of heteroplasmy i e presence of mixed mitochondrial genomes and altered mode of oocyte activation Thanks to seminal contributions of my distinguished colleagues the present volume reviews the progress of SCNT technology in major mammalian species including mouse pig and cattle while at the same time parallels can be drawn and distinctions made between the cellular and molecular basis of nuclear transfer and fertilization
