**On the Trail in France** Ronald W. Kenyon, 2015-10-25. A French speaking American discovers the soul of France on foot through an extensive network of long distance walking trails crisscrossing the country.

**A Lady's Walks in the South of France in 1863** Mary Eyre, 1865      **2,000 Miles on Foot: Walks Through Great Britain and France** E. W. Fox, 1911. The author makes the journey on foot during the time when bicycles were a popular means of transportation and automobiles were just starting out. He provides many comparisons between what he sees and what he knows back home. Clearly his intended audience are people who live in England and are familiar with the English countryside. Overall he takes a cheerful tone in relating his memories of his journey. The stories are as much a travel through time as a journey on foot. Online review: Google Books.
