**Good Nature** Kathy Willis,2024-12-03 A ground breaking investigation into newly discovered evidence showing that remarkable things happen to our bodies and our minds when our senses connect with the natural world We all take for granted the idea that being in nature makes us feel better But if you were a skeptical scientist or indeed any kind of sceptic who wanted hard scientific evidence for this idea where would you look And how would that evidence be gathered It wasn't until Dr Kathy Willis was asked to contribute to an international project looking for the societal benefits we gain from plants that she stumbled across a study that radically changed the way she saw the natural world In the study there was clear proof that patients recovering from gall bladder operations recovered more quickly if they were looking at trees In fact in the last decade there has been an explosion of proof that incredible things happen to our bodies and our minds when our senses interact with the natural world In *Good Nature* Kathy Willis takes the reader on a journey with her to dig out all the experiments around the world that are looking for this evidence experiments made easier by the new kinds of data being collected from satellites and big data biobanks Having a vase of roses on your desk or a green wall in your office makes a measurable difference to your wellbeing certain scents in room diffusers genuinely can boost your immune system and in a chapter that Kathy calls *Hidden Sense* we learn that touching organic soil has a significant effect on the healthiness of your microbiome What is remarkable about this book is how its revelations should to be commonsense schools should let children play in nature to improve their health and concentration urban streets should have trees and yet it reveals just how difficult it is to prove this to businesses and governments As Kathy Willis says in her narrative We now know enough to self prescribe in our homes offices or working spaces gardens and when out walking However small these individual actions might be overall they have the potential to provide a large number of health benefits And we need to be encouraging others to do the same Nature is far more than just something that is useful for our health It is not a dispensable commodity It is an inherent part of us

*Communicating Climate Science - HC 254* Great Britain. Parliament. House of Commons. Select Committee on Science and Technology,Great Britain: Parliament: House of Commons: Science and Technology Committee,Andrew Miller,2014-04-02 The Government is failing to clearly and effectively communicate climate science to the public There is little evidence of co ordination amongst Government government agencies and public bodies on

communicating climate science despite various policies at national and regional level to mitigate and adapt to climate change The mandate to act on climate can only be maintained if the electorate are convinced that the Government is acting on the basis of strong scientific evidence Ministers therefore need to do more to demonstrate that is the case and consistently reflect the Government approach in all their communications especially with the media The report also criticises the BBC for its reporting on the issue It points out that BBC News teams continue to make mistakes in their coverage of climate science by giving opinions and scientific fact the same weight The BBC is called to develop clear editorial guidelines for all commentators and presenters on the facts of climate that should be used to challenge statements from either side of the climate policy debate that stray too far from the scientific facts It is important that climate science is presented separately from any subsequent policy response Government should work with the learned societies and national academies to develop a source of information on climate science that is discrete from policy delivery comprehensible to the general public and responsive to both current developments and uncertainties in the science

**Geography in Secondary Schools** Nick Hopwood, 2012-06-21 Gaining a better sense of how pupils conceive school geography is crucial if we are to understand the ways in which their ideas and values mediate learning processes Geography in Secondary Schools explores how pupils experience geography lessons what they think geography as a school subject is about and what it means to them School geography aims to help young people think about the world and their place in it in a distinctive geographical way However very little is known about the kinds of thinking and values they associate with the subject Researchers are increasingly taking young people's ideas seriously as important and worthy of investigation in their own right In this book Nick Hopwood takes such an approach to explore the relationships between pupils and geography as a school subject He follows six pupils through their geography lessons for a period of three months discussing their learning experiences in depth with them Their participation in class written work and comments made in interviews form the basis for a detailed investigation of their ideas

**Your Bedroom is a Rainforest!** Hannah Sheldon-Dean, 2021-12-14 Go on a journey through the jungle without ever leaving your bed With Your Bedroom is a Rainforest kids can transform an ordinary room into a habitat for some of Earth's most amazing creatures with reusable wall safe and BPA free glow in the dark stickers everything from blue morpho butterflies to Bengal tigers to poison dart frogs What's your favorite animal The answer to this question much like one's favorite color can say a lot about a kid Maybe they're into gorillas because they admire their nobility maybe the colors of a toucan capture their imagination maybe they like crocodiles because they take to water While there are countless possible answers to this question one thing is almost certain they probably aren't going to say squirrel No the favorite animal of a child tends to be exotic dangerous fast and maybe even endangered In the past a long and expensive trip to the zoo was required for kids to pay a visit to their beast of choice Well not anymore Your Bedroom is a Rainforest brings the incredible ecosystems of Central America northern South America western Africa Southeast Asia and beyond right to the walls of your

child's bedroom Within this keepsake worthy hardcover book you will find more than 60 reusable stickers of jaguars capybara scarlet macaws monkeys forest elephants anacondas and many more adorable and sometimes ferocious animals glow in the dark and bring your environment to life Along with the stickers kids can look forward to pages packed with illustrations of their favorite animals accompanied by fascinating and often hard to believe facts such as Most pandas spend half the day eating Toxic poison dart frogs have neon colors to warn predators Tiger urine smells like buttered popcorn Without sloths there would be no avocados Lions may be called the kings of the jungle but they don't live anywhere near them Much of the life in the rainforest is found in the trees Unlike many other cats jaguars do not avoid water in fact they are excellent swimmers The high quality glow in the dark stickers might be what gets kids interested but the amazing facts are sure to be what keeps them around And the best part You're never too old to appreciate amazing jungle animals About the Author Hannah Sheldon Dean is a writer editor and educator specializing in publications for children and young adults She has written several licensed activity books and gift books with Penguin Young Readers and she writes and edits fiction nonfiction and educational materials for a variety of outlets She is currently a writing consultant at the Columbia University School of Social Work and a volunteer mentor with Girls Write Now Hannah received a Master's of Social Work from New York University and a BA in Literary Arts and Education Policy from Brown University and she loves to work on projects that fall at the intersection of those fields She lives in Brooklyn but grew up in Vermont so you might see her wandering the city in search of pine trees mourning doves caterpillars or whatever other bits of nature she can find She also loves singing with Khorikos choir baking bread and dreaming about the animal sanctuary she'll open someday
