Landscapes of W. H. Auden's Interwar Poetry Ladislav Vít,2021-12-14 This is the first book length study foregrounding
Auden s sense of place as a means for enhancing our grasp of this crucial twentieth century poet Proposing that Auden had a
remarkable spatial sensibility this book concentrates on his treatment of his homeland England as well as the North Pennines
and Iceland both of which served as his good places holy grounds and sources of topophilic sentiment The readings draw on
the scholarship of humanistic geography tracing patterns of mental constructs which emerge from spatial experience In a
scholarly but engaging way this book argues that focusing on Auden s poetics of place as it emerged and evolved can be
instrumental to our understanding of this influential poet not only in relation to his epoch but also to the Anglophone poetic
tradition Precisely because of his stature these elaborations on Auden s preoccupation with places escapism borders and
local identity promise to enrich our understanding of the cultural and intellectual climate of the interwar period when
established notions of local places and cultures were beginning to be contested by internationalisation This study will be of
interest to both academics and students in the field of Anglophone literary studies while also appealing to those attracted to

The Poetic Economists of England and Ireland 1912-2000 D. Johnston, 2001-08-08 Although modern English and Irish poetry arises from the different cultures of the two countries these poets have shared throughout this century the same editors and publishers competed for the same prizes and been judged ostensibly by the same standards This book examines contexts for these exchanges over four decades tracing the lineages of Yeats and Hardy from their meeting in 1912 through WWI the 30s the 60s and the 90s to see what influences and ideas are exchanged and how poetic value accrues
