number and sheer weight these problems will thwart any ambition to become the world's Number One power Drawing on extensive research and experience living and working in Asia over the last 35 years the author spells out China's situation and an inexorable demographic future of a shrinking labor force relentless aging extreme gender disparity and even a falling population Also the nation faces social instability a devastated environment a predominantly low tech economy with inadequate innovation the absence of an effective welfare safety net an ossified governance structure and radical Islam lurking at the borders Beardson's nuanced firsthand look at China acknowledges its historic achievements while tempering predictions of its imminent hegemony with a no nonsense dose of reality *Wide Awake in Dream Land* Dominic JP
