The Evolution of Complex Hunter-Gatherers Ben Fitzhugh, 2012-12-06 In 1987 I had the good fortune to join in the excavation of a phenomenal archaeological site on the western coast of Kodiak Island in Alaska The New Karluk site aka Karluk One was perched on the edge of the small village of Karluk at the mouth of the river of the same name once one of the most productive salmon rivers in the North Pacific I had just completed my sophomore year of college and under the direction of Richard Jordan I enthusiastically joined several other students in the Kodiak Archaeology Projects New Karluk excavation I had participated in my father's archaeological research in Eastern Canada since early childhood but the Karluk dig was unlike any archaeology I had experienced before For three months we peeled back layers of grass wood and earth floors separated by remnants of ancient sod roofs Due to the unusual preservation and richness of the site at every turn we uncovered perishable items such as bent wood bowls masks dolls puffin beak rattles grass baskets fragments of fiber netting

locks of hair and food waste Preservation was so excellent in fact that we often exposed grass blades still green after hundreds of years which once exposed to air would turn brown before our eyes

**Archaeology and Capitalism** Yannis Hamilakis, Philip Duke, 2016-06-03 The editors and contributors to this volume focus on the inherent political nature of archaeology and its impact on the practice of the discipline Pointing to the discipline's history of advancing imperialist colonialist and racist objectives they insist that archaeology must rethink its muted professional stance and become more overtly active agents of change The discipline is not about an abstract archaeological record but about living individuals and communities whose lives and heritage suffer from the abuse of power relationships with states and their agents Only by recognizing this power disparity and adopting a political ethic for the discipline can archaeology justify its activities Chapters range from a critique of traditional ethical codes to examinations of the capitalist motivations and structures within the discipline to calls for an engaged emancipatory archaeology that improves the lives of the people with whom archaeologists work A direct challenge to the discipline this volume will provoke discussion disagreement and inspiration for many in the field

**Indigenous Cosmopolitans** Maximilian Christian Forte, 2010 Timely and original this volume looks at indigenous peoples from the perspective of cosmopolitan theory and at cosmopolitanism from the perspective of the indigenous world In doing so it not only sheds new light on both but also has something important to say about the complexities of identification in this shrinking overheated world Analysing ethnography from around the world the authors demonstrate the universality of the local indigeneity and the particularity of the universal cosmopolitanism Anthropology doesn't get much better than this

*Kodiak Kreol* Gwenn A. Miller, 2016-01-21 From the 1780s to the 1820s Kodiak Island the first capital of Imperial Russia's only overseas colony was inhabited by indigenous Alutiiq people and colonized by Russians Together they established an ethnically mixed kreol community Against the backdrop of the fur trade the missionary work of the Russian Orthodox Church and competition among Pacific colonial powers Gwenn A Miller brings to light the social political and economic patterns of life in the settlement making clear that Russia's modest colonial effort off the Alaskan coast fully depended on the assistance of Alutiiq people In this context Miller argues the relationships that developed between Alutiiq women and Russian men were critical keys to the initial success of Russia's North Pacific venture Although Russia's Alaskan enterprise began some two centuries after other European powers Spain England Holland and France started to colonize North America many aspects of the contacts between Russians and Alutiiq people mirror earlier colonial episodes adaptation to alien environments the discovery and exploitation of natural resources complicated relations between indigenous peoples and colonizing Europeans attempts by an imperial state to moderate those relations and a web of Christianizing practices Russia's Pacific colony however was founded on the cusp of modernity at the intersection of earlier New World forms of colonization and the bureaucratic age of high empire Miller's attention to the coexisting intimacy and violence of human connections on Kodiak offers new insights

Susanna Rabow-Edling, 2015-10-15 The Russian Empire had a problem While they had established successful colonies in their territory of Alaska life in the settlements was anything but civilized The settlers of the Russian America Company were drunk disorderly and corrupt Worst of all they were terrible role models for the Natives whom the empire saw as in desperate need of moral enlightenment The empire's solution Send in women In 1829 the Company decreed that any governor appointed after that date had to have a wife in the hopes that these more pious women would serve as glowing examples of domesticity and bring charm to a brutish territory Elisabeth von Wrangell Margaretha Ethol n and Anna Furuhjelm were three of eight governors wives who took up this domestic mantle Married to the Empire tells their stories using their own words and though extraordinary research by Susanna Rabow Edling All three were young and newly wed when they left Russia for the furthest outpost of the empire and all three went through personal and cultural struggles as they worked to adjust to life in the colony Their trials offer a little heard female history of Russian Alaska while illuminating the issues that arose while trying to reconcile expectations of womanhood with the realities of frontier life      **The Indigenous Space and**

**Marginalized Peoples in the United Nations** J. Dahl, 2012-12-05 In the UN indigenous peoples have achieved more rights than any other group of people This book traces this to the ability of indigenous peoples to create consensus among themselves the establishment of an indigenous caucus and the construction of a global indigeness      Alaska Claus M. Naske, Herman E. Slotnick, 2014-10-22 The largest by far of the fifty states Alaska is also the state of greatest mystery and diversity And as Claus M Naske and Herman E Slotnick show in this comprehensive survey the history of Alaska's peoples and the development of its economy have matched the diversity of its land and seascapes Alaska A History begins by examining the region's geography and the Native peoples who inhabited it for thousands of years before the first Europeans arrived The Russians claimed northern North America by right of discovery in 1741 During their occupation of Russian America the region was little more than an outpost for fur hunters and traders When the czar sold the territory to the United States in 1867 nobody knew what to do with Seward's Folly Mainland America paid little attention to the new acquisition until a rush of gold seekers flooded into the Yukon Territory In 1906 Congress granted Alaska Territory a voteless delegate and in 1912 gave it a territorial legislature Not until 1959 however was Alaska's long sought goal of statehood realized During World War II Alaska's place along the great circle route from the United States to Asia firmly established its military importance which was underscored during the Cold War The developing military garrison brought federal money and many new residents Then the discovery of huge oil and natural gas deposits gave a measure of economic security to the state Alaska A History provides a full chronological survey of the region's and state's history including the precedent setting Alaska Native Claims Settlement Act of 1971 which compensated Native Americans for their losses the effect of the oil industry and the trans Alaska pipeline on the economy the Exxon Valdez oil spill and Alaska politics through the early 2000s

Croucher, Lindsay Weiss, 2011-08-10 The Archaeology of Capitalism in Colonial Contexts Postcolonial Historical Archaeologies explores the complex interplay of colonial and capital formations throughout the modern world The authors present a critical approach to this topic trying to shift discourses in the theoretical framework of historical archaeology of capitalism and colonialism through the use of postcolonial theory This work does not suggest a new theoretical framework as such but rather suggests the importance of revising key theoretical terms employed within historical archaeology arguing for new engagements with postcolonial theory of relevance to all historical archaeologists as the field de centers from its traditional locations Examining case studies from North America South America the Caribbean Africa Australia the Middle East and Europe the chapters offer an unusually broad ranging geography of historical archaeology with each focused on the interplay between the particularisms of colonial structures and the development of capitalism and wider theoretical discussions Every author also draws attention to the ramifications of their case studies in the contemporary world With its cohesive theoretical framework this volume is a key resource for those interested in decolonizing historical archaeology in theory and praxis and for those interested in the development of modern global dynamics
