Looking Outward Years Of Crisis At The United:

Public Papers of the Presidents of the United States United States. President, 2001 Public Papers of the Presidents of the United States: John F. Kennedy, 1963 Kennedy, John F., 1964-01-01 Public Papers of the Presidents of the United States Educational Materials Laboratory Report, 1963 The United Nations under Dag Hammarskjöld, 1953-1961 Peter B. Heller, 2001-10-23 Organized around the major events that marked Hammarskjöld's eight and a half years in office this volume takes stock of Hammarskjöld first as a person and then as an international functionary Also included are a bibliography chronology index and an appendix of significant documents *The United Nations and Decolonization* Nicole Eggers, Jessica Lynne Pearson, Aurora Almada e Santos, 2020-07-27 Differing interpretations of the history of the United Nations on the one hand conceive of it as an instrument to promote colonial interests while on the other emphasize its influence in facilitating self determination for dependent territories The authors in this book explore this dynamic in order to expand our understanding of both the achievements and the limits of international support for the independence of colonized peoples This book will prove foundational for scholars and students of modern history international history and postcolonial history *John F. Kennedy* United States. President (1961-1963 : Kennedy), 1964 **The New United Nations** George Edward Taylor, Ben Cashman, 1965 **Genocide, Ethnonationalism, and the United Nations** Hannibal Travis, 2013-01-17 *Genocide Ethnonationalism and the United Nations* examines a series of related crises in human civilization growing out of conflicts between powerful states or empires and indigenous or stateless peoples This is the first book to attempt to explore the causes of genocide and other mass killing by a detailed exploration of UN archives covering the period spanning from 1945 through 2011 Hannibal Travis argues that large states and empires disproportionately committed or facilitated genocide and other mass killings between 1945 and 2011 His research incorporates data concerning factors linked to the scale of mass killing and recent findings in human rights political science and legal theory Turning to potential solutions he argues that the concept of genocide imagines a future system of global governance under which the nation state itself is made subject to law The United Nations however has deflected the possibility of such a cosmopolitical law It selectively condemns genocide and has established an institutional structure that denies most peoples subjected to genocide of a realistic possibility of global justice lacks a robust international criminal tribunal or UN army and even encourages security cooperation among states that have proven to be destructive of peoples in the past Questions raised include What have been the causes of mass killing during the period since the United Nations Charter entered into force in 1945 How does mass killing spread across international borders and what is the role of resource wealth the arms trade and external interference in this process Have the United Nations or the International Criminal Court faced up to the problem of genocide and other forms of mass killing as is their mandate *Accessions List* United States. Department of State. Library Division, 1963 **Professional Journal of the United States Army**, 1964 Hearings United States. Congress. House, 1965

Looking Outward Adlai Ewing Stevenson,1963 *John F. Kennedy in His Own Words* John Fitzgerald Kennedy,2005 A powerful far reaching collection of Kennedy s words revealing a broad picture not only of the man but the great reach of his ideas often obscured by the drama of history A Pulitzer Prize winning journalist and a clinical psychologist collect examples of Kennedy s thinking on diverse issues distilled from formal addresses speeches newspaper and magazine articles and presidential debates as well as private correspondence with friends and aides conversations and his college diary

Preventive War and American Democracy Scott Silverstone,2012-07-26 This volume explores the preventive war option in American foreign policy from the early Cold War strategic problems created by the growth of Soviet and Chinese power to the post Cold War fears of a nuclear armed North Korea Iraq and Iran For several decades after the Second World War American politicians and citizens shared the belief that a war launched in the absence of a truly imminent threat or in response to another s attack was raw aggression Preventive war was seen as contrary to the American character and its traditions a violation of deeply held normative beliefs about the conditions that justify the use of military force This anti preventive war norm had a decisive restraining effect on how the US faced the shifting threat in this period But by the early 1990s the Clinton administration considered the preventive war option against North Korea and the Bush administration launched a preventive war against Iraq without a trace of the anti preventive war norm that was central to the security ethos of an earlier era While avoiding the sharp partisan and ideological tone of much of the recent discussion of preventive war *Preventive War and American Democracy* explains this change in beliefs and explores its implications for the future of American foreign policy **Tower of Babble** Dore Gold,2004-11-09 A United Nations insider exposes how anti American and antidemocratic forces have hijacked the UN and put America and its allies at risk Politicians and pundits are imploring the United States to give the UN a major role in American foreign policy But as bestselling author Dore Gold reveals in *Tower of Babble* it is absurd to look to the UN to fight aggression combat terrorism and preserve global order The UN is an abject failure a fatally flawed organization that has actually accelerated and spread global chaos And it is dominated by anti Western forces dictatorships state sponsors of terrorism and America s worst enemies In his New York Times bestseller *Hatred s Kingdom* Gold blew the lid off Saudi support for terrorism and now he uncovers an even more important story As a former UN ambassador he has a unique insider s perspective on why the UN fails to address or in many cases exacerbates the very problems it was created to solve He shows how President Franklin Roosevelt s great vision has been corrupted beyond recognition Using internal UN documents and classified cables Gold presents stark evidence of how the UN ignores mass murder emboldens terrorists props up dictators and otherwise betrays its mission to protect the world s security *Tower of Babble* reveals Why America can and indeed must go outside the UN to address the most serious threats to national

security How the UN jeopardizes the success of the war on terror and how terrorist groups have actually penetrated UN organizations How in the space of a year the UN turned a blind eye to two horrifying episodes of mass murder and why the slaughters could have been prevented How the oil for food scandal only hints at the UN's repeated failures to deal with Saddam Hussein's Iraq How the UN's new international criminal court threatens America's sovereignty How the UN's startling record of failure has led Presidents Truman Kennedy Johnson Clinton and George W Bush to bypass the UN Security Council As this hard hitting book reveals it is quite simply a myth that the United Nations is a positive force for world order or the sole source of international legitimacy And unless the United States and its allies recognize this now they will continue to put themselves at risk Dore Gold's book is informed and informative It can be read with pleasure and profit by anyone with a genuine interest in the United Nations I warmly recommend it Jeane J Kirkpatrick former Ambassador to the United Nations For anyone wondering what's wrong with the United Nations this is the book to read Providing both a concise history and an urgent warning for our own time Dore Gold in clear and lively detail explains how and why the UN too often promotes not peace but problems and what we can do about it Claudia Rosett columnist the Wall Street Journal's Opinionjournal.com Dore Gold's Tower of Babel is bound to be one of the most controversial critiques in the public debate on the UN Henry Kissinger Former Secretary of State **Departments of State, Justice, and Commerce, the Judiciary, and Related Agencies Appropriations for ...** United States. Congress. House. Committee on Appropriations,1966 **International Organizations** Alvin LeRoy Bennett,1995 This text includes material on intergovernmental regional and private organizations but also deals with significant international developments affecting international organizations between 1989 and 1994
