Looking At Submarines:

One of Our Submarines Edward Young,2004-09-30 Young immortalized his distinguished war service as a submariner in the bestselling autobiography *One of Our Submarines* a gripping memoir The Guardian In the very highest rank of books about the last war Submarines are thrilling beasts and Edward Young tells of four years adventures in them in a good stout book with excitement on every page He writes beautifully economically and with humor and in the actions he commands he manages to put the reader at the voice pipe and the periscope so that sometimes the tension is so great that one has to put the book down The Sunday Times No disrespect to the big screen but you can t beat a book for digging out the details And the details feel even better if the author is someone who s been there So at least take the time to read *Das Boot* the autobiographical novel by Lothar G nther Buchheim And for the British perspective read *One of Our Submarines* by Edward Young The Mouldy Books He tells his story in a modest clear and amusing way that is a delight to read not too much **The Story of Our Submarines** Klaxon,2020-07-24 Reproduction of the original *The Story of Our Submarines* by Klaxon *Boy Scouts in a Submarine; Or, Searching an Ocean Floor* G. Subcommittee on Department of Defense,1990 *Asia Looks Seaward* Toshi Yoshihara,James R. Holmes,2007-11-30 Asia is headed toward an uncertain and

potentially volatile future in the maritime arena The two rising Asian powers China and India dependent as they are on seaborne commerce for their economic well being have clearly set their eyes on the high seas Yoshihara and Holmes offer a stark warning that many strategists in Beijing and New Delhi appear spellbound by the more militant visions of sea power Indeed both powers appear poised to develop the capacity to control the sea lanes through which the bulk of their commerce flows If they enter the nautical environment with such a martial mindset Asia could very well fall victim to regional rivalries that give rise to a vicious cycle of competition Yoshihara and Holmes provide the first examination of the simultaneous rise of two naval powers and the potential impact that such an oceanic reconfiguration of power in Asia could have on long term regional stability Their study analyzes the maritime interests and strategies of the littoral states in Asia as they prepare for the expected reordering of nautical affairs This long overdue assessment revisits underlying assumptions that have prevailed among strategy makers and provides a concrete policy framework for reducing the risk of confrontation in Asian waters

Save Our Souls: Rescues Made by U.S. Submarines During World War II Douglas E. Campbell, 2016-04-02 At last count nearly 2 400 people can claim that their lives were saved by a U S submarine during World War II Of that number 523 Allied aviators could claim that distinction after crashing their aircraft into the sea and being saved by a submarine operating in the Lifeguard League The remaining number were a collection of other military and civilian personnel each with a story to tell and now able to tell their grand children Some of those rescued went on to retire as senior military officers including U S Navy Admirals some back to missionary work some to manage large companies in later years some to philanthropic endeavors to pay everyone back for saving their lives Appendix A is an intensely researched index of nearly 2 200 names of those saved **Department of Defense Appropriations for Fiscal Year 1994** United States.
