Search of the Cradle of Civilization Georg Feuerstein, Subhash Kak, David Frawley, 2005-01-01 The book shows that the ancient Indians were no primitives but possessed a high spiritual culture which not only influenced the evolution of the Western world in decisive ways but which still has much to teach us today India s archaic spirituality is codified in the rich symbols metaphors and myths of the magnificent Rig Veda which is shown to be much older than has been widely assumed by scholars The present book also unravels the astonishing mathematical and astronomical code hidden in the Vedic hymns Anyone interested in ancient cultural history India archaeo astronomy or spirituality will find this well researched and cross cultural work spellbinding and enriching **Kuwait: Prospect and Reality** H.V.F. Winstone, Zahra Freeth, 2017-08-18 For many the story of this small Arabian state begins and ends with the wealth that has accrued from its vast oil deposits But the real fascination of Kuwait lies in its geological and archaeological history in its long struggle for survival among powerful neighbours in its ambitious plans for industrial and economic development This book first published in 1972 shows the effects of the new material wealth opened up by oil in relation to the country s remote past and its Islamic background

Cultural Heritage in the Arabian Peninsula Karen Exell, Trinidad Rico, 2016-04-22. Heritage projects in the Arabian Peninsula are developing rapidly. Museums and heritage sites are symbols of shifting national identities and a way of placing the Arabian Peninsula states on the international map. Global i.e. Western heritage standards and practices have been utilised for the rapid injection of heritage expertise in museum development and site management and for international recognition. The use of Western heritage models in the Arabian Peninsula inspires two key areas for research which this book examines: the obscuring of indigenous concepts and practices of heritage and expressions of cultural identity and the tensions between local community concepts of heritage and identity and the new national identities being constructed through museums and heritage sites at a state level.

Rushdoony, 2019-08-26 Faith and Action is the complete collection of the essays of R J Rushdoony written for the Chalcedon Report between 1965 and 2001 along with several transcripts of his recorded talks The large volume The Roots of Reconstruction only contained his Chalcedon Report essays up until 1985 so most of the essays included in Faith Action were unavailable to readers for many years until now In order to make the author's knowledge more accessible this three volume collection features some of the most extensive indexing we've ever done including a General Index a History Index a Scripture Index a Works Cited Index and a Chalcedon Report Directory A total of 183 pages of indexing This handsome set of books is a must have for any serious library The central theme of this collection of essays is Christian Reconstruction which to Rushdoony meant the responsibility of Christian citizenship in the Kingdom of God For him his central drive behind his research and writing was to move men to faith and action Rushdoony was primarily an essayist who vigorously and prolifically wrote on a multiplicity of subjects issues and disciplines Despite his being critical of both the contemporary church for its compromise and the humanistic state for its will to be as God these essays are replete with Rushdoony's undying faith in the victory of God in history Rushdoony's big idea was Christian Reconstruction which centered not on a pursuit of political power but rather an equipping of Christians to take back government by means of self government in terms of God's law This three volume collection will no doubt serve the larger church for many generations as they seek first the Kingdom of God in their spheres and in their times **Magan - The Land of Copper**
