*Speaking in Styles* Jason Cranford Teague, 2009-06-30. *Speaking in Styles* aims to help Web designers learn the language that will be used to take their vision from the static comp to the live Internet. Many designers think that CSS is code and that it's too hard to learn. Jason takes an approach to CSS that breaks it down around common design tasks and helps the reader learn that they already think in styles; they just need to learn to speak the language. Jason helps Web designers find their voice, walks them through the grammar of CSS, shows them how to write their design specs in CSS, and how to prepare it for screen, printer, or handheld devices. Along the way, designers will learn to optimize their code, make it accessible, optimize for search engines, mix it up with Flash, and more.

*British Children's Literature and Material Culture* Jane Suzanne Carroll, 2021-10-21. The golden age of children's literature in the late 19th and early 20th century coincided with a boom in the production and trade of commodities. The first book-length study to situate children's literature within the consumer culture of this period, *British Children's Literature and Material Culture* explores the intersection of children's books, consumerism, and the representation of commodities within British children's literature. In tracing the role of objects in key texts from the turn of the century, Jane Suzanne Carroll uncovers the connections between these fictional objects and the real objects that child consumers bought, used, cherished, broke, and threw away. Beginning with the Great Exhibition of 1851, this book takes stock of the changing attitudes towards consumer culture, a movement from celebration to suspicion, to demonstrate that children's literature was a key consumer product, one that influenced young people's views of and relationships with other kinds of commodities. Drawing on a wide spectrum of well-known and less familiar texts from Britain, this book examines works from Lewis Carroll's *Through the Looking Glass* and *What Alice Found There* and E. Nesbit's *Five Children It to Christina*, Rossetti's *Speaking Likenesses*, and Mary Louisa

Molesworth's *The Cuckoo Clock* Placing children's fiction alongside historical documents shop catalogues lost property records and advertisements Carroll provides fresh critical insight into children's relationships with material culture and reveals that even the most fantastic texts had roots in the ordinary everyday things
