ON THE WISDOM OF CHINA FU-CHUN PENG,2021-08-04 Truthfully and accurately this book attempts to elucidate the nature and forms of China s ancient wisdom and reinterpret its ideological significance thereby activating its inherent vitality and promoting the construction of contemporary Chinese thought The wisdom of China with its own discourse system gives unique stipulations to existence thought and language Confucianism Taoism and Chan Buddhism as the historical manifestations of Chinese wisdom respectively express the thoughts between man and man between man and nature and between man and mind In fact these three aspects exactly constitute the whole of man s life world The thoughts of Confucianism Taoism and Chan Buddhism are mainly and respectively represented in The Four Books and Five Classics Lao Zi and Zhuang Zi and Tan Jing The Sutra of Hui Neng The wisdom of China different from the non natural wisdom of the West is fundamentally a natural wisdom according to which nature is the basis of human existence thought and language However in early modern times the natural history of China was confronted with an unprecedented crisis Ever since then China has entered the post natural era

Ehling, Claus-Peter Holste-von Mutius, 2001 Includes articles interviews creative writing and book reviews The Foundations of Social Order R. J. Rushdoony, 2009-11-06 The Foundations of Social Order was and remains the most unique book ever written in the history of Christendom Nothing like it has been written before and nothing like it has been written since Christian and non Christian historians have generally agreed on at least one thing about creeds and history they are not connected in any meaningful comprehensive way A few non Christian historians Harold Berman and his Law and Revolution being a good example have mentioned that the Christian creeds have been instrumental in shaping the legal views and therefore the legal structure of the West But a general study of how the creeds formed the West and its unique outlook has always been lacking the reason being that both Christian and non Christian authors are eager to constrain the significance of the creeds to the church and the history of theology Even Philip Schaff in his three volume work The Creeds of Christendom confines their value and use to the church The view of the creeds has been dualistic creeds were separated from history and history was left to follow its own course independent from the development of Christian theology and the perfection of the faith of the saints
