Kumar Chaudhari, Bhupinder Chaudhary, Sushman Sharma, Kunaal Dhingra, 2023-01-04 This book is a compilation of work by experts from the different domains of the healthcare industry ranging from hospital planning to quality management clinical services to disaster management. Healthcare organizations being diverse, sensitive and intricate warrant thorough and flawless planning. The structure should be not only operationally efficient but also safe for its occupants and visitors. It starts with a brief introduction of the healthcare sector at different levels. It also attempts to justify how the changing healthcare landscape paved the way for establishing a contemporary and ever evolving specialty of Hospital planning and designing which is dynamic and frequently requires continuous improvements and updates. Clinical and non clinical departments have been separately classified in this book and their respective standards and guidelines have been incorporated while describing the planning concepts. Critical areas of a hospital such as ICU, CCU have been detailed precisely as the operational requirements and level of different sophistication required. A chapter on security aspects and disaster management has also been thoroughly envisioned based on the current scenario at the global level. Issues and management of Hospital Acquired Infection are explained in different chapters based on its relevance and application in that particular area. Privatization of Facility Management in Public Hospitals Hong Poh Fan, 2016-06-15 The Malaysian economy has gone from the doldrums to being a juggernaut which has posed many challenges to the health care industry especially hospitals. Public hospitals in Malaysia have faced an uphill task in upgrading health care services to levels compatible with international standards. In this book Hong Poh Fan a senior adviser on facility management for a hospital developer explores the transition that public hospitals have undertaken with the support of the private sector. The author zeroes in on critical issues including successes and challenges of privatization implementation, hospital experiences in a Southeast Asian context and how those experiences can be applied elsewhere and ways that private development of hospitals has changed over time as well as the rationale of privatization. When people think of what the hospital industry needs they often focus on having enough doctors and nurses but when facilities management is lacking services can be compromised no matter how employees are working at a facility. Join the author as he shares lessons learned over a fifteen year period of hospital privatization in this detailed examination of how to improve health care.
