## **Managerial Accounting Text:**

*Managerial Accounting for Managers* Eric Noreen, Peter Brewer, Ray Garrison, 2010-01-11 *Managerial Accounting for Managers* 2nd Edition by Noreen Brewer Garrison is based on the market leading text *Managerial Accounting* by Garrison Noreen and Brewer. The Noreen book was created to serve customers who do not wish to teach the financial accounting oriented content that is included in the Garrison book. Of our three books the Brewer book, the Garrison book, and the Noreen book, the Noreen book is the most pure management accounting textbook. The other two books have greater amounts of financial accounting content. *Managerial Accounting for Managers* 2nd Edition is geared towards professors who love Garrison's market leading managerial accounting content but have been bothered by the debits and credits included in the book. It includes the same coverage of managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting, Decisions and Segment Reporting, and Decentralization. The job order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting: planning, control, and decision making.

*Managerial Accounting* Ronald W. Hilton, 1999. The emphasis of this text is to teach students how to use and interpret accounting information in managing an organization. It includes coverage of contemporary topics, a balanced use of service, retail, non-profit, and manufacturing companies, and a company focus per chapter.
