Mediterranean Perspectives James E. Caraway, 1996-01-01 Selected papers from the Dowling College Mediterranean Conference **Subject Guide to Books in Print** ,1997 **The European Union Unveiled: Bridging Theory and Action** Sibel Elif Özdilek, 2025-06-30 The European Union is more than a political institution or an economic alliance it is a historical response to centuries of conflict a philosophical search for unity and a fragile experiment in collective identity The European Union Unveiled Bridging Theory and Action explores the EU s evolution from a fragmented continent toward an ambitious vision of supranational cooperation Drawing from centuries of intellectual heritage from the Roman ideal of citizenship to Victor Hugo s dream of the United States of Europe the book traces how wars ideologies and integration treaties have shaped today s European project Through an in depth analysis of foundational treaties institutional structures and political crises including Brexit migration the Arab Spring and the Russia Ukraine war the book challenges readers to rethink what the EU is and what it could become Arguing that Europe cannot become a true global power without deeper political unity the author revisits Altiero Spinelli s federalist vision and presents a bold hypothesis The path forward requires not just cooperation but true constitutional federation This work is an essential resource for scholars students and policymakers seeking to understand the theory behind the European Union and the action required to secure its future

Forthcoming Books Rose Army, 2003-04 *Books in Print* ,1994 **MLA International Bibliography of Books and Articles on the Modern Languages and Literatures** ,2008 **Yearbook of International Organizations 2004/2005** Union of International Associations, 2004 *Globalism in the Middle Ages and the Early Modern Age* Albrecht Classen, 2023-09-05 Although it is fashionable among modernists to claim that globalism emerged only since ca 1800 the opposite can well be documented through careful comparative and transdisciplinary studies as this volume demonstrates offering a wide range of innovative perspectives on often neglected literary philosophical historical or medical documents Texts images ideas knowledge and objects migrated throughout the world already in the pre modern world even if the quantitative level compared to the modern world might have been different In fact by means of translations and trade for instance global connections were established and maintained over the centuries Archetypal motifs developed in many literatures indicate how much pre modern people actually shared But we also discover hard core facts of global economic exchange import of exotic medicine and on another level intensive intellectual debates on religious issues Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable often desirable and at times feared of course The pre modern world was much more on the move and reached out to distant lands out of curiosity economic interests and political and military concerns Diplomats crisscrossed the continents and artists poets and craftsmen traveled widely We can identify for instance both the Vikings and the Arabs as global players long before the rise of modern globalism so this volume promises to rewrite many of our traditional notions about pre modern worldviews economic

conditions and the literary sharing on a global level as perhaps best expressed by the genre of the fable **Social Justice and the Legitimacy of Slavery** Ilaria Ramelli, 2016 Were slavery and social injustice leading to dire poverty in antiquity and late antiquity only regarded as normal natural Aristotle or at best something morally indifferent the Stoics or in the Christian milieu a sad but inevitable consequence of the Fall or even an expression of God's unquestionable will Social Justice and the Legitimacy of Slavery shows that there were also definitive condemnations of slavery and social injustice as iniquitous and even impious and that these came especially from ascetics both in Judaism and in Christianity and occasionally also in Greco Roman pagan philosophy Ilaria L E Ramelli argues that this depends on a link not only between asceticism and renunciation but also between asceticism and justice at least in ancient and late antique philosophical asceticism Ramelli provides a careful investigation through all of Ancient Philosophy not only Aristotle and the Stoics but also the Sophists Socrates Plato the Neoplatonists and much more Ancient to Rabbinic Judaism Hellenistic Jewish ascetic groups such as the Essenes and the Therapeutae all of the New Testament with special focus on Paul and Jesus and Greek Latin and Syriac Patristic from Clement and Origen to the Cappadocians from John Chrysostom to Theodoret to Byzantine monastics from Ambrose to Augustine from Bardaisan to Aphrahat without neglecting the Christianized Sentences of Sextus In particular Ramelli considers Gregory of Nyssa and the interrelation between theory and practice in all of these ancient and patristic philosophers as well as to the parallels that emerge in their arguments against slavery and against social injustice Early Modern Eyes Walter Simon Melion, Lee Palmer Wandel, 2010 Drawing on optic theory ethnography and the visual cultures of Christianity this volume explores various discourses of vision in early modern Europe and the colonial Americas **Red Coats and Wild Birds** Kirsten A. Greer, 2019-11-21 During the nineteenth century Britain maintained a complex network of garrisons to manage its global empire While these bases helped the British project power and secure trade routes they served more than just a strategic purpose During their tours abroad many British officers engaged in formal and informal scientific research In this ambitious history of ornithology and empire Kirsten A Greer tracks British officers as they moved around the world just as migratory birds traversed borders from season to season Greer examines the lives writings and collections of a number of ornithologist officers arguing that the transnational encounters between military men and birds simultaneously shaped military strategy ideas about race and masculinity and conceptions of the British Empire Collecting specimens and tracking migratory bird patterns enabled these men to map the British Empire and the world and therefore to exert imagined control over it Through its examination of the influence of bird watching on military science and soldiers contributions to ornithology Red Coats and Wild Birds remaps empire nature and scientific inquiry in the nineteenth century world **The Publishers' Circular and General Record of British and Foreign Literature**, 1849 *Lumley's Bibliographical Advertiser*, 1840 Colonial Capitalism and the Dilemmas of Liberalism Onur Ulas Ince, 2018-03-16 In Colonial Capitalism and the Dilemmas of Liberalism Onur Ulas Ince combines an analysis of political economy with normative

political theory to examine the formative impact of colonial economic relations on the historical development of liberal thought in Britain Focusing on the centrality of liberal economic principles to Britain's self image as a peaceful commercial society Ince investigates some of the key historical moments in which these principles were thrown into question by the processes of forcible expropriation and exploitation that typified the British imperial economy as a whole **The Life of a Galilean Shaman** Pieter F. Craffert, 2008-01-01 Historical Jesus research remains trapped in the positivistic historiographical framework from which it emerged more than a hundred and fifty years ago This is confirmed by the nested assumptions shared by the majority of researchers These include the idea that a historical figure could not have been like the Gospel portrayals and consequently the Gospels have developed in a linear and layered fashion from the authentic kernels to the elaborated literary constructions as they are known today The aim of historical Jesus research therefore is to identify the authentic material from which the historical figure as a social type underneath the overlay is constructed Anthropological historiography offers an alternative framework for dealing with Jesus of Nazareth as a social personage fully embedded in a first century Mediterranean worldview and the Gospels as cultural artifacts related to this figure The shamanic complex can account for the cultural processes and dynamics related to his social personage This cross cultural model represents a religious pattern that refers to a family of features for describing those religious entrepreneurs who based on regular Altered State of Consciousness experiences perform a specific set of social functions in their communities This model accounts for the wide spectrum of the data ascribed to Jesus of Nazareth while it offers a coherent framework for constructing the historical Jesus as a social personage embedded in his worldview As a Galilean shamanic figure Jesus typically performed healings and exorcisms he controlled the spirits while he also acted as prophet teacher and mediator of divine knowledge

Books in Print Supplement, 1994 *Foundations of Modern International Thought* David Armitage, 2013 This insightful and wide ranging volume traces the genesis of international intellectual thought connecting international and global history with intellectual history British Books, 1907 Books in Series, 1985 Vols for 1980 issued in three parts Series Authors and Titles **Disability Studies and the Classical Body** Ellen Adams, 2021-05-13 By triangulating the Greco Roman world classical reception and disability studies this book presents a range of approaches that reassess and reimagine traditional themes from the narrative voice to sensory studies It argues that disability and disabled people are the forgotten other of not just Classics but also the Humanities more widely Beyond the moral merits of rectifying this neglect this book also provides a series of approaches and case studies that demonstrate the intellectual value of engaging with disability studies as classicists and exploring the classical legacy in the medical humanities The book is presented in four parts Communicating and controlling impairment illness and pain Using creating and showcasing disability supports and services Real bodies and retrieving senses disability in the ritual record and Classical reception as the gateway between Classics and disability studies Chapters by scholars from different academic backgrounds are carefully paired in these sections in order to draw out further

contrasts and nuances and produce a sum that is more than the parts The volume also explores how the ancient world and its reception have influenced medical and disability literature and how engagements with disabled people might lead to reinterpretations of familiar case studies such as the Parthenon This book is primarily intended for classicists interested in disabled people in the Greco Roman past and in how modern disability studies may offer insights into and reinterpretations of historic case studies It will also be of interest to those working in medical humanities sensory studies and museum studies and those exploring the wider tension between representation and reality in ancient contexts As such it will appeal to people in the wider Humanities who notwithstanding any interest in how disabled people are represented in literature art and cinema have had less engagement with disability studies and the lived experience of people with impairments FREE CHAPTER AVAILABLE Please go to <https://bit.ly/3pzpO7n> to access the Introduction which we have made freely available
