of Government Orren Chalmer Hormell,1925      **A Case for a Federal India** Siddharth Srivastava,2021-10-21 A Case for a Federal India involves a novel study on comparative federalism The author makes out a case against the quasi federal or unitary characterisation of the Constitution of India by the jurists and justices alike India has often been characterised as a quasi federal nation considering that it possesses several unitary features which may not be present in a traditional federation such as the United States of America or Australia However these characterisations did not involve an in depth study of federalism The author argues that even the traditionally federal constitutions are not purely federal in the modern day considering that the courts and governments have introduced several unitarian features which were not present when these federations came into existence For instance the two World Wars and the Great Economic Depression necessitated a stronger federal government in the U S A to effectively counter these situations As a necessary corollary several constitutional amendments were introduced to grant strong unitarian powers to the federal government such as the emergency powers Therefore the present position of India concerning federalism is very much similar to the modern day federations of the U S A and Australia rendering the quasi federal characterisation questionable This book attempts an in depth study of federalism and argues against the quasi federal characterisation of India      **The Lincoln Library of Essential Information** ,1924
