P-47 Thunderbolt at War Cory Graff, **Modelling the P-47 Thunderbolt** Brett Green, 2012-04-20 The P 47 Thunderbolt affectionately nicknamed the Jug was one of the most famous fighter aircraft of World War II Used as both a high altitude escort fighter and a low level fighter bomber it quickly gained a reputation for being tough and resilient Many different air forces operated this plane and it sported a wide range of camouflage schemes finishes and markings including stunning nose art Modellers have been well served with Thunderbolt kits over the years right up to the latest highly accurate releases This book takes a step by step approach to modelling a wide variety of P 47 types in 1 48 scale from Razorbacks in USAAF colours to RAF T bolts in the Far East It provides expert advice on conversions including a Bubbletop to a P 47M adding aftermarket items detailing and ways to achieve top quality weathering and finishes **P47 Thunderbolt** David Doyle, 2019-06-28 Among the iconic aircraft of World War II the Republic P 47 Thunderbolt not only was physically the biggest single engine fighter it also had an enormous impact on history In terms of its combat effectiveness P 47 fliers destroyed 7 067 hostile aircraft with about half of those kills recorded during aerial combat Thunderbolt pilots reported destroying 6 000 enemy tanks 68 000 trucks 86 000 railway cars and 9 000 locomotives For a single engine fighter such a tally is definitely one for the history books The history of this iconic aircraft is presented through carefully researched archival photos as well as photographs of preserved examples thereby illustrating not only the combat use of the Thunderbolt but also the details of its design and construction Large clear photos coupled with descriptive and informative captions put the reader on the airfield and in the sky with this historic aircraft Part of the Legends of Warfare series *P-47 Thunderbolt at War* William N. Hess, 1976 **Thunderbolt to War** John Anderson, Steve Sperry, 2017-05-17 Thunderbolt to War gives a remarkable personal insight into the structure and operations of a leading USAAF Fighter Squadron in Britain during the Second World War This theme is explored through the recorded thoughts and feelings of Clint Sperry a skilled fighter pilot who was seconded to England with the 353rd Fighter Group the rarely celebrated workhorse of Eighth Fighter Command Despite the relative anonymity of the Group the names of its charismatic leaders still resonate today including the eighteen victory ace Walter Beckham and the aggressive Glenn E Duncan Clint and his colleagues suffered many frustrating and perilous experiences during the war they encountered enemy fighters flak treacherous weather and mechanical problems throughout the bloody battles over Europe To survive was a lottery but Clint s experience and aptitude served him well This account follows the soaring successes and devastating traumas that Clint experienced culminating in a vivid picture of a fighter pilot s war He flew 106 missions in his favoured P47 Thunderbolt and was credited with destroying or probably destroying five enemy aircraft in addition to destroying many targets on the ground by strafing and bombing Clint was awarded three DFCs for his courage and gained the enduring respect of his son Steve and his friend John Anderson Their richly illustrated account of his life pays tribute to a true American hero Illustrations 118 black and white illustrations

Fighters and Bombers of World War II , **World War II Dispatch** ,1994 *Picture History of World War II American Aircraft Production* Joshua Stoff,2013-01-03 Over 250 rare photographs depict one of the greatest industrial feats of all time America s massive production of World War II fighters and bombers An introduction and captions outline the history *Evansville in World War II* James Lachlan MacLeod,2015-11-02 During World War II the city of Evansville manufactured vast amounts of armaments that were vital to the Allied victory The Evansville Ordnance Plant made 96 percent of all 45 caliber ammunition used in the war while the Republic Aviation Plant produced more than 6 500 P 47 Thunderbolts almost half of all P 47s built during the war At its peak the local shipyard employed upward of eighteen thousand men and women who forged 167 of the iconic Landing Ship Tank vessels In this captivating and fast paced account University of Evansville historian James Lachlan MacLeod reveals the enormous influence these wartime industries had on the social economic and cultural life of the city *A History of the Mediterranean Air War, 1940-1945* Christopher Shores,Russell Guest,2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When

these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich's oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany's Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies
