Paranormal Foreknowledge:

Paranormal Foreknowledge Jule Eisenbud, 1982 **Children Who Remember Previous Lives** Ian Stevenson, M.D., 2016-05-20 The concept of reincarnation has been around for thousands of years and is a part of many religions including Hinduism Buddhism Jainism and Sikhism In addition to these religious beliefs many people believe it offers an explanation for the mysteries of life There are children that claim to remember previous lives as adults or even animals These claimed memories might affect the development of the child and be incorporated into the child s personality This book presents an in depth look at Dr Stevenson s forty years studying children who claim to remember previous lives It is an informative professional read that dispels common misconceptions about reincarnation and offers an open minded perspective It provides an overview of the history of the belief in and evidence for reincarnation with new material relating to birthmarks and birth defects independent replication studies and recent developments in genetic study It also covers research on children the methods used the cases studied and the analyses of the data The idea of reincarnation is explored as an explanation for some unsolved problems in psychology and medicine INTRODUCTION TO REINCARNATION Provides an introduction to the study of reincarnation including a discussion of the belief in reincarnation VARIATIONS IN DIFFERENT CULTURES Looks at how reincarnation is viewed in different cultures around the world and how it has changed over time EXPLANATORY VALUE OF THE IDEA OF REINCARNATION The idea of reincarnation has been around for thousands of years and many people believe it offers an explanation for the mysteries of life TYPES OF EVIDENCE FOR REINCARNATION There are many types of evidence for reincarnation including anecdotal evidence case studies and research studies TYPICAL CASES OF CHILDREN Looks at typical cases of children who remember previous lives with a focus on their characteristics METHODS OF RESEARCH Discusses the methods of research and the various ways in which previous life memories can be investigated ANALYSIS AND INTERPRETATION OF CASES Analyzes a number of cases from the author s 40 year career

Dark Pool of Light, Volume One Richard Grossinger, 2012-08-21 In books like Embryogenesis and Embryos Galaxies and Sentient Beings author Richard Grossinger brought together the subjects of biological embryology and the esoteric process of human consciousness becoming embodied The embryo is the universe writing itself on its own body In Dark Pool of Light his latest creation Grossinger weaves neuroscience based behaviorism and the phenomenology of being and reality together with psychological and psychospiritual views of that single thing which is most difficult to understand or vindicate our own existence In 2008 Grossinger began studying with noted psychic teacher John Friedlander who helped him refine his vision of cerebral and somatic awareness to still subtler levels Dark Pool of Light began unnamed in the journals of my psychic work with John Friedlander says Grossinger not so much a record of actual practices as insights from them and extensions out of them An expansive inquiry into the nature of consciousness the series examines the tension between the scientific and philosophical and psychic views of the same phenomena and includes field notes and experiential exercises that invite the

reader to make their own explorations *Dark Pool of Light* is divided into three volumes which the author calls movements the allusion to music is apt for the book unfolds in a truly symphonic manner In Volume 1 Grossinger begins with the scientific and philosophical analytical views of reality exploring the science parascience philosophy and psychology of consciousness Covering topics as diverse as current discoveries in neuroscience and the philosophy of the ancient Greeks the book gives a broad overview of the bodies of knowledge concerning the nature of reality and consciousness **Advances in**

Parapsychological Research 9 Stanley Krippner,,Adam J. Rock,Julie Beischel,2013-09-06 The essays in this volume 9 of a series inform readers of the present status of leading issues in parapsychology or psi research The authors are experts in their fields and have written in a reader friendly way that captures the complexity and importance of their topics Each essay comprehensively reviews a controversial topic from a critical stance and updates its status based on the latest theoretical and empirical considerations For readers who need to keep pace with the evolution of thinking in psi research this volume is authoritative *Trance Speakers* Claudie Massicotte,2017-05-17 Few people know that Susanna Moodie participated in spiritual s ances with her husband Dunbar and her sister Catharine Parr Traill Moodie like many other women found in her communications with the departed an important space to question her commitment to authorship and her understanding of femininity Retracing the history of possession and mediumship among women following the emergence of spiritualism in mid nineteenth century Canada and unearthing a vast collection of archival documents and photographs from s ances Claudie Massicotte pinpoints spiritualism as a site of conflict and gender struggle and redefines modern understandings of female agency *Trance Speakers* offers a new feminist and psychoanalytical approach to the religious and creative practice of trance arguing that by providing women with a voice for their conscious and unconscious desires this phenomenon helped them resolve their inner struggles in a society that sought to confine their lives Drawing attention to the fascinating history of spiritualism and its persistent appeal to women Massicotte makes a strong case for moving this practice out of the margins of the past A compelling new reading of spiritual possession as a response to conflicting interpretations of authorship agency and gender *Trance Speakers* shines a much needed light on women s religious practices and on the history of spiritualist traditions and travels across North America and Europe *Intuition in Psychotherapy* Marilyn Stickle,Margaret Arnd-Caddigan,2019-05-29 *Intuition in Psychotherapy* provides an unprecedented look at the phenomenon of clinical intuition outlining its role in psychotherapy and providing a framework to develop intuitive skills that will positively impact practice Based on qualitative research and extensive first hand interviews the text illuminates how an awareness of intuitive processes can benefit therapists diagnostic and treatment outcomes Chapters provide a context for the use of intuition within current thinking in psychotherapy and highlight different forms of intuition that can be purposefully incorporated into clinical practice Suitable for trainee and practicing psychotherapists the text explores common intuitive processes and offers guidance for how practitioners might develop a unique therapeutic style As understanding of intuition becomes mainstream

in psychotherapy practice Intuition in Psychotherapy will serve as a key point of reference for years to come Precognitive Dreamwork and the Long Self Eric Wargo,2021-03-02 Outlines a set of clear principles to help guide dreamworkers illustrated through real precognitive dream experiences Shows how to detect precognitive dreams through their characteristic features explaining how dreams relate to memory and why dreams about future experiences are often symbolic or distorted Explores the mind blowing implications of precognition for our lives including how our present thoughts actually shape or shaped our past Once only the stuff of science fiction evidence has grown that precognition glimpses of your future in dreams and visions and being influenced subtly in waking life by what is to come is real Your future thoughts and feelings shape who you are now And your present thoughts and feelings shape or shaped your past In this accessible exploration of precognition precognitive dreamwork and a radically new biographical sensibility the Long Self that precognition awakens us to Eric Wargo shows how dreamworkers can play the role of citizen scientists adding to our understanding of this fascinating almost unexplored dimension of human life Wargo outlines a set of clear principles to guide dreamworkers each illustrated through real dreamers experiences Drawing on psychoanalysis and contemporary sleep science he explores how precognition relates to memory explaining why dreams of future experiences are often distorted and what those distortions probably mean He discusses never before described dream features including time gimmicks symbols hinting at time distortion and calendrical resonance the tendency of dreams to foretell experiences exactly a year or years later He describes why an understanding of precognition augments Jung s theory of synchronicity by highlighting our own role in producing meaningful coincidences in our waking lives He also shows how precognition manifests in other states of consciousness like lucid dreams out of body experiences trance states sleep paralysis meditation and hypnagogia We are at a major turning point in science s understanding of time causality and the self We are more than who we think we are from moment to moment we are our past present and future simultaneously When we understand this a dream journal becomes a personal time machine with mind blowing discoveries in store for the traveler *Fifty Excuses (Not) to Do Bulletproof Estate Planning* Elain Andrews JD LTC USAR (Ret.),2016-05-27 If you don t want a stranger to get control over you and all of your assets then this book about the 50 most common excuses for not doing bullet proof estate planning is for you This is not the kind of estate planning that you can get just anywhere This is expert planning that is specifically designed to keep your life out of the practically insurmountable control of the court However if you are like most people you don t have this kind of estate plan even if you think you have one already Your justifications for this unwitting mistake just might cost you everything **Planetary Mysteries** Richard Grossinger,1986 Planetary Mysteries is a compilation of essays fiction and non fiction meant to explore megaliths glaciers the face on Mars and Aboriginal dreamtime among other things Contributors include Richard Hoagland Jeff Greenwald Richard Grossinger Normandi Ellis John Brandi Rob Brezny the author of Pronoia Gary David and Richard Silberg **The Reality of ESP** Russell Targ,2012-03-27 The co founder of the 20 year government supported ESP research program at Stanford

Research Institute delivers the evidence of psychic abilities that he has collected Original **Relating to God**, Dan Merkur, 2013-11-21 In *Relating to God* Clinical Psychoanalysis Spirituality and Theism Dan Merkur conceptualizes religious discourse within psychoanalysis He proposes that God be treated as a transferential figure whose analysis leads to a reduction of the parental content that is projected onto God Merkur notes that religious conversion experiences regularly involve theological intuitions that are either rational or owing to morbid complications have undergone displacement into irrational symbolism Analysis renders the religiosity more wholesome Traditionally psychoanalytic thought has been dismissive of religion Freud is on record however as having called psychoanalysis a neutral procedure He argued that religion with its dependency on a providential God who punishes disobedience imagines spirituality on the model of human parents and fails to approach spirituality in an appropriately scientific manner He wrote little of spiritual phenomena but mentioned both the rationality of the universe and the parapsychological occurrence of thought transference Occasionally later psychoanalysts used different language in order to contrast wholesome and morbid forms of religion Erich Fromm distinguished authoritarian and humanistic religions while D W Winnicott condemned fetishistic behavior while approving of playful illusions that require belief in These formulations constructed a middle position for clinicians neither categorically opposed to religion as classical psychoanalysis was nor do they embrace cultural relativity as spiritually oriented psychotherapists are currently advocating What sorts of spiritual practices does psychoanalysis find unobjectionable As examples of humanistic religion Fromm named Zen Buddhism Buddhist mindfulness meditation and the via negativa or way of negating that some Christian and Jewish mystics have followed Because the Bible based approaches are little known Merkur discusses their histories procedures and psychoanalytic understanding **Planet Medicine: Modalities, Revised Edition** Richard Grossinger, 2000 Planet Medicine is a major work by an anthropologist who looks at medicine in a broad context In this edition additions to this classic text include a section on Reiki a comparison of types of palpation used in healing updates on craniosacral therapy and a means of understanding how different alternative medicines actually work Illustrated throughout this is the standard on the history philosophy and anthropology of this subject **Planet Medicine** Richard Grossinger, 2001-01-31 Planet Medicine is a major work by an anthropologist who looks at medicine in a broad context In this edition additions to this classic text include a section on Reiki a comparison of types of palpation used in healing updates on craniosacral therapy and a means of understanding how different alternative medicines actually work Illustrated throughout this is the standard on the history philosophy and anthropology of this subject **Science and Spirit** Charles F. Emmons, Penelope Emmons, 2012-08 The authors explore the evidence for consciousness apart from the body and whether there is survival of consciousness after bodily death They investigate the existence and meaning of ESP out of body experiences near death experiences reincarnation spirit mediumship lucid dreaming and ghost experiences They also share a variety of scientific frames for looking at these happening and disclose their own paranormal experiences **Western Art**

and Jewish Presence in the Work of Paul Celan Esther Cameron, 2014-10-15 Western Art and Jewish Presence in the Work of Paul Celan Roots and Ramifications of the Meridian Speech addresses a central problem in the work of a poet who holds a unique position in the intellectual history of the twentieth century On the one hand he was perhaps the last great figure of the Western poetic tradition one who took up the dialogue with its classics and who responded to the questions of his day from a global concern if often cryptically And on the other hand Paul Celan was a witness to and interim survivor of the Holocaust These two identities raise questions that were evidently present for Celan in the very act of poetry This study takes the form of a commentary on Celan's most important statement of his poetics and beliefs The Meridian which is an extraordinarily condensed text packed with allusions and multiple meanings It reflects his early work and anticipates later developments so that the discussion of The Meridian becomes a consideration of his oeuvre as a whole The commentary is an act of listening an attempt to hear what these words meant to the poet to see the landscapes from which they come and the reality they are trying to project and in the light of this to arrive at a clear picture of the relation between Celan's Jewishness and his vocation as a Western writer

Love and the Soul James Gollnick, 2006-01-01 This book provides serious students of psychology religion and mythology with a detailed account and analysis of what has been accomplished in the psychological interpretation of the Eros and Psyche myth to date The Eros and Psyche myth has over the course of the twentieth century received nearly as much attention from depth psychologists as has the Oedipus story In their attempt to better understand this popular story scholars have proposed various interpretations which have generally followed either Freudian or Jungian theories about the nature of the psyche and its development Love and the Soul emphasizes how psychological theory determines the direction of interpretation much more than does the literary context of the myth itself It also examines the strengths and weaknesses of these psychological interpretations five Freudian and six Jungian of the Eros and Psyche myth in order to lay the groundwork for an interpretation which 1 avoids the rigidity of both Freudian and Jungian dogma and 2 restores the myth to its rightful literary and religious context something which has been ignored by most psychological interpretations

Aspects of Consciousness Ingrid Fredriksson, 2012-08-20 Throughout the ages the mysteries of what happens when we die and the nature of the human mind have fascinated us In this collection of essays leading scientists and authors contemplate consciousness quantum mechanics string theory dimensions space and time nonlocal space the hologram and the effect of death on consciousness Although many of these topics have traditionally been considered matters for philosophical and religious debate advances in modern science and in particular the science of resuscitation have now enabled an objective scientific approach which bears widespread implications not only for science but for all of humanity

Limitless Mind Russell Targ, 2010-10-04 The psychic abilities of most humans are dampened by the clatter of our conscious minds In this timely book Russell Targ shows readers how to quiet this noise and see into the far reaches of time and space through remote viewing He also illuminates the phenomena of intuitive medical diagnosis and distant healing in a

groundbreaking synthesis of research and empirical data Drawing on a broad range of spiritual traditions Targ demonstrates that these psychic abilities offer a path of self inquiry and self realization and have the power to expand each person s limited awareness into the consciousness shared by all beings Targ explores the scientific and spiritual implications of remote viewing as well as offering practical techniques and exercises to nurture this universally available but often untapped skill

The Ecstatic Imagination Dan Merkur,1998-01-22 The Ecstatic Imagination provides the first general theory of psychedelic experiences Merkur refutes several theories that have been used to explain single categories of psychedelic experience and offers instead a unitary theory that is applicable to all varieties The book treats self reports of psychedelic experiences as a wealth of neglected data which forms the basis to expand the psychoanalytic model of human imagination An exhaustive phenomenology of the varieties of LSD mescaline and psilocybin experiences in Western and Native American cultures is joined together with psychoanalytic theories drawn from the classical ego psychological and object relations schools Where existing theories prove inadequate to the discussion of data original formulations are offered The result is a rigorously psychoanalytic approach to the process of self actualization

Miracles of Mind Russell Targ,Jane Katra, PhD,2010-10-04 The authors begin with compelling evidence of psychic abilities gathered in Targ s remote viewing experiments for the Stanford Research Institute Targ reveals how the experiments were conducted and how subjects were able to describe remote locations with precise detail Targ also presents the results of recently declassified covertly funded CIA experiments in remote spying during the Cold War published here for the first time After surveying the scientific evidence of the mind s nonlocal powers Targ and Katra apply this evidence to the field of healing Incorporating ancient Eastern teachings and modern scientific evidence published in the most prestigious scientific journals Targ and Katra explain the process of spiritual healing which they describe as a quieting of the mind to open it to the community of spirit The book stays with you long after you put it down It can change the way you view the world and yourself
