The Studio ,1897 The International Studio Charles Holme,Guy Eglington,Peyton Boswell,William Bernard McCormick,Henry James Whigham,1916 The Studio ,1963 Studio ,1897 A 100 Year History of Portrait Photography and the Provincial Photographic Studio Graham Thomas,2025-10-06 Portrait photography immediately became the mainstay of the commercial photographic business It was the core money making idea behind photographic studios being established in the early 1840s Yet yet very little has been written about the emergence and then the development of the commercial photography business even less about those who operated outside of the major urban centres read London and instead were based in the provinces This is surprising since a number of these local photographers had a significant impact Just one example the first portraits of royalty were not taken in London but in Brighton This led to the Royal Family taking a keen interest in photography which in turn helped boost its acceptance and popularity A second would be the work of H P Robinson working in Leamington Spa an example of his work is shown at the start of this chapter A third would be the emergence of colour photography which was championed by a Stroud based photographer Of equal but rarely mentioned importance is the provincial photographer s crucial role in the recording of people and places thereby providing today s permanent visual record of every aspect of daily life Something that perhaps is taken for granted because of the ubiquitousness of the picture postcard but they possess what Roland Barthes once called the essence of photography they serve to bring the past into the present Finally their work led to the democratisation of the photographic image a phenomenon that would impact the lives of everyone and continues to this day Is there anyone who does not possess a photograph of themselves **The Nature of Nordic Music** Tim Howell,2019-09-19 The Nature of Nordic Music explores two distinctive yet complementary understandings of the term nature the inherent features characters and qualities of contemporary Nordic music and how the elemental forces of nature the phenomena of the physical world landscape climate environment inspire and condition creativity here Within a broader debate about the meaning of Nordicness 12 case studies challenge our assumptions about a Nordic tone to reveal a creative energy that is diverse and cosmopolitan in outlook Each of the three parts of the book Identities Images and Environments accommodates an eclectic array of musical genres classical popular jazz folk electronic This book will appeal to anyone interested in Nordic music and culture especially students and researchers **The Camera as Actor** Amy Cox Hall,2020-11-29 Looking beyond the impact photographs have on the perpetuation and expression of social norms and stereotypes and the influence of the act of taking a photograph this new collection brings together international scholars to examine the camera itself as an actor Bringing the camera back into view this volume furthers our understanding of how and in what ways imaging technology shapes us our lives and the representations out of which we fashion knowledge base our judgments and ultimately act Through a broad range of case studies the authors in this collection make the convincing claim that the camera is much more than a mechanical device
