Preaching in medieval england : an introduction to sermon manuscripts of the period G. R. Owst,1965

Preaching in Medieval England, an Introduction to Sermon Manuscripts of the Period C. 1350-1450, by G.R. Owst ... G. R. Owst,1926 **Chaucer and Medieval Preaching** Sabine Volk-Birke,1991 *Preaching During the English Reformation* Susan Wabuda,2002-11-21 This is a study of the religious culture of sixteenth century England centred around preaching and is concerned with competing forms of evangelism between humanists of the Roman Catholic Church and emerging forms of Protestantism More than any other authority Erasmus refashioned the ideal of the preacher Protestant reformers adopted preaching Christ as their strategy to promote the doctrine of justification by faith The apostolic traditions of the preaching chantries provided standards that evangelical reformers used to supplant the mendicant friars in England The late medieval cult of the Holy Name of Jesus is explored the pervasive iconography of its symbol IHS became one of the attributes of moderate Protestant belief The book also offers fresh perspectives on fifteenth and sixteenth century figures on every side of the doctrinal divide including John Rotherham John Colet Hugh Latimer and Anne Boleyn *Preaching in the Age of Chaucer* ,2008-07 Here are translations of 25 Latin sermons written between 1350 and 1450 demonstrating how preachers constructed them and shaped them to their own purposes This book contains a general introduction and short historical notes on the individual selections **A History of Preaching Volume 1** Rev. O.C. Edwards JR.,2016-04-25 A History of Preaching brings together narrative history and primary sources to provide the most comprehensive guide available to the story of the church s ministry of proclamation Bringing together an impressive array of familiar and lesser known figures Edwards paints a detailed compelling picture of what it has meant to preach the gospel Pastors scholars and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching Volume 1 contains Edwards s magisterial retelling of the story of Christian preaching s development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century s discontent with outdated forms and emphasis on new modes of preaching such as narrative Along the way the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time Origen Chrysostom Augustine Bernard Aquinas Luther Calvin Wesley Edwards Rauschenbusch Barth all of their distinctive contributions receive careful attention Yet lesser known figures and developments also appear from the ninth century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching to Howell Harris and Daniel Rowlands preachers of the eighteenth century Welsh revival to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew Volume 2 available separately as 9781501833786 contains primary source material on preaching

drawn from the entire scope of the church's twenty centuries. The author has written an introduction to each selection placing it in its historical context and pointing to its particular contribution. Each chapter in Volume 2 is geared to its companion chapter in Volume 1's narrative history. Ecumenical in scope, fair-minded in presentation, appreciative of the contributions that all the branches of the church have made to the story of what it means to develop, deliver, and listen to a sermon, *A History of Preaching* will be the definitive resource for anyone who wishes to preach or to understand preaching's role in living out the gospel. This work is expected to be the standard text on preaching for the next 30 years, says Ann K. Riggs, who staffs the NCC's Faith and Order Commission. Author Edwards, former professor of preaching at Seabury Western Theological Seminary, is co-moderator of the commission, which studies church uniting and church dividing issues. *A History of Preaching* is ecumenical in scope and will be relevant in all our churches; we all participate in this field, says Riggs from EcuLink Number 65, Winter 2004/2005, published by the National Council of Churches.

Medieval Monastic Preaching
Carolyn Muessig, 1998. This book demonstrates that monastic preaching was a diverse activity which included preaching by monks, nuns, and heretics. The study offers a preliminary step in understanding how preaching shaped monastic identity in the Middle Ages.

A History of Preaching
Otis Carl Edwards, 2004. Accompanying CD-ROM contains the full text of volume one and two. Volume two contains primary source material on preaching drawn from the entire scope of the church's twenty centuries. Each chapter in volume two is geared to its companion chapter in volume one's narrative history.

Preachers and People in the Reformations and Early Modern Period
Larissa Taylor, 2021-10-01. Sermons are an invaluable source for our knowledge of religious history and sociology, anthropology, and the mental landscape of men and women in pre-modern Europe of what they were taught and what they practiced. But how did an individual process the preached message from the pulpit? How exactly do written sermons duplicate the preached Word? Do they at all? The 11 leading scholars who have contributed to this book do not offer uniform answers or an all-encompassing study of preaching in the Reformations and early modern period in Europe. They do, however, provide new insights on Catholic, Lutheran, and Reformed preaching in Western and Central Europe. Part One examines changes in sermon structure, style, and content in Christian sermons from the thematic sermon typical of the Middle Ages to the wide variety of later preaching styles. Catholic preaching after Trent proves not to be monolithic and intolerant but a hybrid of forms past and present applied as needed to particular situations. Lutheran homiletic theory is traced from Luther and through Melancthon, the intention of the sermon being to transform the worship service based on exegesis of Scripture. In Reformed worship, the expository sermon, often given on a daily basis with a continuing exegesis, was designed to communicate the tenets of the faith in terms that the laity could understand in plain style. Part Two deals with the social history of preaching in France where preachers often incited their hearers to attack human beings or holy objects or were themselves attacked; in Italy where preaching became a collective and home-grown product; in early modern Germany where the authorities strove for uniformity of preaching practice and the preacher was seen as a

moral guardian in Switzerland where leaders from Zwingli on sought to bring religious practice conduct and government in line with biblical teaching and propagated a pastoral vision of preaching in England where after the Reformation preachers became the indispensable agents of salvation but clergy and congregations were often ill prepared for the task in Scandinavia where post Reformation sermons have a clear didactic aim teaching obedience to the authorities and in the Low Countries characterized by its numerous denominations all with their own churches and particular practices in terms of preaching The volume ends with a consideration of the influence of late medieval preaching on the Reformation concluding that the diversity of emphasis on how the practice of penance was preached and received very likely affected the appeal or not of the Lutheran Reformed message in a given country *An Explorer's Guide to Julian of Norwich* Veronica Mary Rolf,2018-06-12 Julian of Norwich s Revelations of Divine Love is truly an astounding work an inspiring example of Christian mysticism a unique contribution to Christian theology the first book in English known to have been written by a woman Veronica Mary Rolf guides us as we read examining its fourteenth century context and illuminating our understanding of this enduring work *English Gothic Misericord Carvings* Betsy Chunko-Dominguez,2017-03-06 English Gothic Misericord Carvings History from the Bottom Up by Betsy Chunko Dominguez is the first book to move beyond textual dependence and traditional iconographic analysis when examining misericords It likewise builds the most thorough discussion to date of the relationship between the misericord s several potential audiences including patron craftsman occupant of the seat and modern viewer Beyond the bounds of misericord studies there are implications here for study of the relationship between center and margin in late medieval art and indeed what constitutes center and margin as conceptual realms Ultimately this book attempts both to re integrate the study of misericords into the study of Gothic art in general and to re center them in relation to our understanding of late medieval culture **Youth in the Middle Ages** P. J. P. Goldberg,Felicity Riddy,2004 Evidence for childhood and youth from the sixth century to the sixteenth but with particular emphasis on later medieval England Moving on from the legacy of Ari s these essays address evidence for childhood and youth from the sixth century to the sixteenth but with particular emphasis on later medieval England The contents include the idea of childhood in the writing of Gregory of Tours skaldic verse narratives and their implications for the understanding of kingship Jewish communities of Northern Europe for whom children represented the continuity of a persecuted faith children in the records of the northern Italian Humiliati the meaning of romance narratives centred around the departure of the hero or heroine from the natal hearth the age at which later medieval English youngsters left home how far they travelled and where they went literary sources revealing the politicisation of the idea of the child and the response of young affluent females to homiletic literature and the iconography of the virgin martyrs in the later middle ages Contributors FRANCES E ANDREWS HELEN COOPER P J P GOLDBERG SIMCHA GOLDIN EDWARD F JAMES JUDITH JESCH KIM M PHILLIPS MIKE TYLER ROSALYNN VOADEN

The Mirror of the Blessed Life of Jesus Christ Nicholas Love,2019-05-29 Published in 2005 At a time when the

church sought to control and constrain lay access to vernacular and paramystical texts the author's translation sanctioned by the Archbishop of Canterbury met a pressing need for religious guidance among lay people It became one of the most copied works of the fifteenth century **The Censored Pulpit** Donyelle C. McCray,2019-10-16 Few have consoled the church as ably as the fourteenth century mystic Julian of Norwich However her prophetic gifts have received little scholarly attention Drawing on contemporary homiletical theory and the history of Christian spirituality Donyelle C McCray presents Julian as a preacher examining the apostolic dimensions of Julian's vocation as an anchoress and highlighting the steps she took to align herself with renowned preachers like Saint Cecelia Mary Magdalene and the apostle Paul Like Paul Julian saw Jesus body as her primary text placed human weakness at the center of her theology and used her own confined body as a rhetorical tool Yet she navigated a web of censorship that threatened to silence her To voice her convictions Julian developed a novel approach to authority and exploited the fluidity of the medieval English sermon genre McCray charts this process revealing Julian as a central personality in the history of preaching whose best contemporary parallels operate outside the pulpit in august figures like retreat leader Evelyn Underhill gospel singer Mother Willie Mae Ford Smith and street preacher Reverend Billy *English Readers of Catholic Saints* Judy Ann Ford,2020-05-18 In 1484 William Caxton the first publisher of English language books issued *The Golden Legend* a translation of the most well known collection of saints lives in Europe This study analyzes the molding of the *Legenda aurea* into a book that powerfully attracted the English market Modifications included not only illustrations and changes in the arrangement of chapters but also the addition of lives of British saints and translated excerpts from the Bible showing an appetite for vernacular scripture and stories about England's past The publication history of Caxton's *Golden Legend* reveals attitudes towards national identity and piety within the context of English print culture during the half century prior to the Henrician Reformation Cultural Creativity in the Early English Renaissance E. Salter,2006-04-12 This book is about the ways that ordinary people in town and country creatively define themselves their families and their social networks It explores inheritance strategies personal possessions attitudes to commemoration after death the daily fashioning of identity and the interactions between imagination and daily life

Julian's Gospel Veronica Mary Rolf,2013 This fascinating study of the life and work of Julian of Norwich the 14th century English mystic whose *Revelations* is among the most popular and influential works of Christian mysticism is the first book to combine an historical reconstruction of Julian's life in 14th century Norwich with a comprehensive commentary on her *Revelations* in a new and faithful translation from the Middle English Unlike other brief summaries of Julian's life and times this book goes in depth to uncover the political cultural social and religious milieu that formed and deeply influenced her development as a woman and a mystic Additionally unlike other textual companions to Julian's work that provide only short explanations of Middle English words or merely footnote theological terms this work gives the reader a detailed analysis of her writings illuminating her ground breaking mystical theology with extensive scholarship Throughout the book creates a

strong dramatic arc for Julian's Revelations that interweaves her personal sufferings and burning questions with her visionary experiences producing a compelling spiritual biography **The Antiquaries Journal** ,1927
