Predicament Of Postmodern Theology Radical Orthodoxy Or Nihilist Textualism:

The Predicament of Postmodern Theology Gavin Hyman, 2001-01-01 Gavin Hyman explores in depth two antithetical schools of postmodern theology the radical orthodoxy of John Milbank and the nihilist textualism of Don Cupitt Hyman critiques Milbank's influential project from a postmodern perspective and then points out the major difficulties with Cupitt's approach Finally he explores the work of Mark C Taylor and Michael de Certeau to articulate a third way that leads beyond the responses of both Cupitt and Milbank Radical Orthodoxy Or Nihilist Textualism? Gavin Lee Hyman, University of Cambridge, 1999 *The Poverty of Radical Orthodoxy* Lisa Isherwood, Marko Zlomislíć, 2012-09-21 Radical Orthodoxy whose founding father is John Milbank claims that God has been pushed to the margins in modernity and that a false and misleading neo theology has taken hold that needs to be revisited and contested It is this return to the premodern that often leads theologians to have reservations about Radical Orthodoxy when they might otherwise have some sympathy for many of its positions Radical Orthodoxy like most traditional theology claims that the power of God is in all creation and that God sits everywhere for all to partake of But there appears to be a failure to see that the church and theology do not set in place systems that live out this basic assumption Liberation theology while sharing much of the same assumption that God is everywhere and to be shared at the same time engages in a critique of the structures that claim to facilitate this vision and finds them wanting From here then liberation theologians attempt to refigure our understanding of shared power in order to broaden the vision while it may be argued that Radical Orthodoxy simply restates the assumption with little political critique of the issues Perhaps this point explains why this book is titled *The Poverty of Radical Orthodoxy* rather than *Radical Error*

Radical Orthodoxy in a Pluralistic World Angus M. Slater, 2018-01-02 Radical Orthodoxy remains an important movement within Christian theology but does it relate effectively with an increasingly pluralist and secular Western society Can it authentically communicate the beauty and desire of the divine to such a diverse collection of theological accounts of meaning This book re assesses the viability of the social model given by John Milbank before attempting an out narration of this vision with a more convincing account of the link between the example of the Trinitarian divine and the created world It also touches on areas such as interreligious dialogue particularly between Christianity and Islam as well as social issues such as marginalisation integration and community relations in order to chart a practical way forward for the living of a Christian life within contemporary plurality This is a vital resource for any Theology academic with an interest in Radical Orthodoxy and conservative post modern Christian theology It will also appeal to scholars involved in Islamic Studies and studying interreligious dialogues Jewish Theology for a Postmodern Age Miriam Feldmann Kaye, 2019-03-08 Through a critical study of the writings of Rav Shagar and Tamar Ross Miriam Feldmann Kaye asks how Jewish theology can survive the tide of postmodernism and its refutation of a single objective and ultimate truth and suggests how aspects of postmodernism might be conceived of as a potential resource for rejuvenating religion **Interpreting the Postmodern** Rosemary Radford

Ruether, Marion Grau, 2006-01-19 A collection of feminist historical liberation and constructive theological responses Radical Orthodoxy The Cambridge Companion to Postmodern Theology Kevin J. Vanhoozer, 2003-07-31 Postmodernity allows for no absolutes and no essence Yet theology is concerned with the absolute the essential How then does theology sit within postmodernity Is postmodern theology possible or is such a concept a contradiction in terms Should theology bother about postmodernism or just get on with its own thing Can it Theologians have responded in many different ways to the challenges posed by theories of postmodernity In this introductory 2003 guide to a complex area editor Kevin J Vanhoozer addresses the issue head on in a lively survey of what talk about God might mean in a postmodern age and vice versa The book then offers examples of different types of contemporary theology in relation to postmodernity while the second part examines the key Christian doctrines in postmodern perspective Leading theologians contribute to this clear and informative Companion which no student of theology should be without **God and Being** George Pattison, 2013-03-29 Western theology has long regarded Being as a category pre eminently applicable to God the supreme Being who is also the source of all existence This idea was challenged in the later philosophy of Martin Heidegger and identified with the position he called ontotheology Heidegger s critique was repeated and radicalized in so called postmodern thought to the point that many theologians and philosophers of religion now want to talk instead of God as beyond Being or without Being Against this background God and Being attempts to look again at why the ideas of God and Being got associated in the first place and to investigate whether the critique of ontotheology really does require us to abandon this link After exploring how this apparently abstract idea has informed Christian views of salvation and of the relationship between God and world George Pattison examines how such categories as time space language human relationships and embodiment affect our understanding of God and Being Pattison concludes that whilst Heidegger s critique has considerable force it remains legitimate to speak of God as Being under certain restricted conditions The most important of these is that God is better conceived in terms of purely possible Being rather than as in classic Christian theology actual Being This leaves open possibilities of dialogue with e g non theistic religious traditions and with science that are foreclosed by traditional conceptions Ultimately however all basic religious ideas must issue from and be seen to serve the requirements of embodied love Trinitarian Responses to Worldliness Heejun Yang, 2022-07-11 Are you a seminarian scholar who wants to go further from your school s Barthian tradition The purpose of this book is to connect cutting edge post Barthian trinitarian theological movements all around the world postliberal theology Yale school in the US radical orthodoxy Cambridge school in the UK German radical hermeneutic theology Zurich school in the German speaking world and the theology of inculturation Korean Methodist school in Asia Although each theological movement had a tremendous impact on the entire area of theology there has been no work done to connect those twenty first century theological trends The strength of this book is that it connects different theological movements with the author s own unique view as a Korean theologian Comparing different Trinitarian theological

movements the author argues for the necessity of a God focused theology to embrace different human understandings in a world where Christianity is not dominant The book claims that Christians can pursue a genuine dialectics of differentiation and interdependence when they understand the global phenomenon of Christianity s inculturation as the work of the Trinity who relates Godself to different worldly cultures *Reason, Truth, and Theology in Pragmatist Perspective* Paul D. Murray, 2004 In this work Paul Murray explores which style of rationality is most appropriate to Christian theology in the contemporary pluralist postfoundationalist postmodern context At its heart is a fresh consideration of the American pragmatist tradition focussing on the writings of Richard Rorty and Nicholas Rescher Where Rorty correctly diagnoses the failures of foundationalist objectivism Rescher s pragmatic idealism is presented as healing the ills in Rorty s own neo pragmatism The significant resonance between Rescher s view of rationality and Christian understanding of the trinity is explored In turn Donald MacKinnon s influential writings are presented as exemplifying just such an approach to theology Murray both articulates an enriched form of Christian postliberalism committed to receiving and learning from other traditions of thought and practice and probes the claim that the dynamics of human rationality can be expected to reflect the Trinitarian dynamics of God s being Paul Murray presents us here with an exhaustive and insightful study of recent pragmatic theory in which he sets up rhythms of healing and completion as well as interrogation particularly remarkable is his exploration of Christianity as the deep and in some sense final interlocutor of pragmatic tradition I strongly recommend this book Olivier Davis Professor of Christian Doctrine King s College London This is a mature wide ranging work that by uniting the intellectual and the practical carries both rational and ethical conviction It does equal justice to the classic teachings of Christianity and to the challenges to rethink them in dialogue with modern and postmodern approaches The result is a conception of Christianity both generously orthodox and deeply engaged with contemporary life and thought It is especially good to see the profound contribution of Donald MacKinnon understood and developed with such perception and relevance David F Ford Regius Professor of Divinity University of Cambridge Paul Murray is currently Lecturer in Systematic Theology within the Department of Theology at the University of Durham England He has previously held posts at St Cuthbert s Seminary Ushaw College Durham and Newman College of Higher Education Birmingham Essays of his exploring issues in philosophical theology science and theology and contemporary Roman Catholic theology have appeared in leading journals and edited collections This is his first monograph
