Liggera,2013-08-15 Robert Loraine was born in a period when technology exploded into a world whose keyword was Progress Both he and his lifelong friend George Bernard Shaw believed they were in an evolutionary period of humanity Born into a theatrical family he understood its clashes of temperament and competition for the attention of the audience He was fortunate to be playing in London by age twenty one and secured lead roles two years later Thus it was incomprehensible to his peers when he volunteered to fight in the Boer War After his year of service he heeded his father s advice first conquer London and then America He accepted a contract from Daniel Frohman in New York Four years of dusty old plots made him yearn for something new something he found in Shaw s *Man and Superman* A two year tour in the role of John Tanner led him to professional and financial success The lust for something new also led him into pioneer aviation Visualizing the aeroplane s unlimited potential he challenged the theory that flight could only take place in calm weather by flying through a raging thunderstorm Ever of a military mind he also demonstrated the machine s capacity for scouting in military maneuvers With political stormclouds closing in again in 1914 Robert volunteered six days before his country declared war on Germany Dispatched to the Royal Flying Corps he served all four years of the war rose to the highest rank of any civilian and was gravely wounded twice Robert married at age forty five but the compromises of domesticity did not come easily to him His young wife Winifred suffered through the downward spiral of an aging actor The 1930s brought the Great Depression and he returned to the United States attempting to make money on Broadway or in Hollywood When he finally returned to England in November 1935 he died two days before Christmas      *The Men Who Gave Us Wings* Peter Reese,2014-04-02 Why did the British then the leading nation in science and technology fall far behind in the race to develop the aeroplane before the First World War Despite their initial advantage they were overtaken by the Wright brothers in America by the French and the Germans Peter Reese in this highly readable and highly illustrated account delves into the fascinating early history of aviation as he describes what happened and why He recalls the brilliant theoretical work of Sir George Cayley the inventions of other pioneers of the nineteenth century and the daring exploits of the next generation of airmen among them Samuel Cody A V Roe Bertram Dickson Charles Rolls and Tommy Sopwith His narrative is illustrated with a wonderful selection of over 120 archive drawings and photographs which record the men and the primitive flying machines of a century ago As featured on BBC Radio Surrey and in *Essence Magazine*      **Till the Boys Come Home** Roger Foss,2019-01-25 Ever since the signing of the Armistice in 1918 theatre has played an important part in reflecting the experience of the war to end all wars But on the Home Front what role did those involved with British theatre play during those tumultuous four years and three months *Till the Boys Come Home* salutes British theatre in wartime when theatres

became powerful generators for escapism for stirring patriotism for sharing experiences of loss and joy and for raising vast amounts of charity money It brings to life a Britain where theatre going peaked in popularity yet became full of the curious contradictions bred by war Richly illustrated with original programmes posters and ephemera author and critic Roger Foss reveals a theatrical powerhouse where all sections of the profession from grand Shakespearian knights to lowly concert party artistes were doing their bit both at home and on the front line **Theatre at War, 1914-18** L. Collins,1997-11-05 A lively study of the function of theatre entertainment in the First World War 1914 18 The theatre s role as unofficial government aide in the form of recruiter propagandist and fund raiser is examined so too its use as morale booster and provider of a war related role for the aristocracy female and military over aged male artists The organization of theatre for and by the military and civilian concert parties for troops in training and at the Front is analysed **World War I Aviation** James Philip

Shaw,2021 Nobel Laureate George Bernard Shaw remains one of the world s most important and popular writers His plays are regularly performed around the world from the boards of Broadway and the West End to regional community and college stages The three plays selected here are widely considered to be three of the most important in the canon of modern British theatre Man and Superman a four act comedy for serious people staged in part at Royal court in 1905 it is one of the early works of Modernism to take an ancient myth and restage it in contemporary mode and its influence extends across world literature palpable in writings from Mann to Joyce Its story of how a sensitive woman compels a superman figure to adjust to her needs and those of the real world provides an updated commentary on Nietzsche s still fashionable notions of ubermensch and its famous third act introduces a persistent Shavian theme which goes back as far as earliest religious literature that the truly damned are those who are happy in hell John Bull s Other Island takes up that idea to the visionary hell may be the ultimate modern dream of efficiency and rational administration as manifested in a colonial Ireland run by

liberal exploiters Commissioned by WB Yeats to mark the opening of Ireland's National Theatre the Abbey the play was promptly refused by its Directors who disliked its mechanical mockeries of mechanism but may have missed its visionary qualities It was performed to huge acclaim in London in November 1904 and it made Shaw famous the supreme example of the Playwright as Thinker and ever afterwards one of the most valued commentators on Anglo Irish relations Major Barbara a three act drama which in classic Shavian style unmasks the motivation of puritan idealists and dedicated industrialists this work like the previous two pits a strong woman against a sardonic practical man Having exposed the mendacity of apostles of efficiency Shaw seems then to submit to their doctrine arguing that a pure private charity towards the destitute is no adequate substitute Like the previous two works this is a problem play in the course of which the audience sympathy is aroused and then repelled in all directions The suggestion that it may be acceptable to take money from tainted sources such as arms manufacturers caused much debate in 1905 and even more after the carnage wrought by mechanized guns in World War One
