Consumer Product Safety Review ,1996 The White Cascade Gary Krist,2008-01-22 The never before told story of one of the worst rail disasters in U S history in which two trains full of people trapped high in the Cascade Mountains are hit by a devastating avalanche In February 1910 a monstrous blizzard centered on Washington State hit the Northwest breaking records The world stopped but nowhere was the danger more terrifying than near a tiny town called Wellington perched high in the Cascade Mountains where a desperate situation evolved minute by minute two trainloads of cold hungry passengers and

their crews found themselves marooned without escape their railcars gradually being buried in the rising drifts For days an army of the Great Northern Railroad s most dedicated men led by the line s legendarily courageous superintendent James O Neill worked round the clock to rescue the trains But the storm was unrelenting and to the passenger s great anxiety the railcars their only shelter were parked precariously on the edge of a steep ravine As the days passed food and coal supplies dwindled Panic and rage set in as snow accumulated deeper and deeper on the cliffs overhanging the trains Finally just when escape seemed possible the unthinkable occurred the earth shifted and a colossal avalanche tumbled from the high pinnacles sweeping the trains and their sleeping passengers over the steep slope and down the mountainside Centered on the astonishing spectacle of our nation s deadliest avalanche Gary Krist s *The White Cascade* is the masterfully told story of a supremely dramatic and never before documented American tragedy An adventure saga filled with colorful and engaging history this is epic narrative storytelling at its finest

The Ptsd Workbook Mary Beth Williams,2009-12 Trauma survivors need to find ways to work through their experiences and get a sense of meaning and understanding is great While the majority of those who have experienced direct trauma or who have witnessed trauma will heal even persons who do not develop full blown post traumatic stress disorder or PTSD will experience a number of the symptoms of post traumatic stress flashbacks intrusive thoughts and memories hyperreactivity avoidance of persons places things and other triggers jumpiness and other symptoms Other persons have experienced lifelong traumas that are character changing many of these people suffer from a syndrome that researchers are just beginning to describe called complex PTSD This workbook was conceptualized as a resource for the

survivor who experiences a few or many of the symptoms of PTSD or complex PTSD When we were first asked to develop this book we asked colleagues to share exercises that might help survivors do the work themselves We also began to focus on the exercises we use in our own clinical work Indeed our clinical experience is what makes us qualified to author this book Both of us are primarily grunt workers in the trenches of the field of trauma We have met with many clients on a regular basis for both short term and long term therapy That extensive experience allows us to say that though the road of healing may be long and difficult healing can and does happen In this workbook you will have the opportunity to complete numerous exercises that will give you insight into your symptoms your beliefs your behaviors and your feelings about the trauma or traumas you endured Many of these exercises can be completed in the book itself so that the book becomes a record of your recovery from trauma as well as a resource for you to turn to again and again throughout that recovery Other exercises can be completed in a separate notebook or journal which can also be used to expand upon the exercises you complete in the book or to record your other thoughts and feelings along your journey to healing We hope that this book will help you on that journey
