A GOWER HEALTH AND SAFETY WORKBOOK

Safety For Managers A Gower Health And Safety Workbook A Gower Health Safety Workbook

Tania Van der Stap

Safety For Managers A Gower Health And Safety Workbook A Gower Health Safety Workbook:

Productive Safety Management Tania Mol, 2003-10-10 Unlike most books on this subject Productive Safety Management described in this book integrates occupational health and safety human resource management environmental management and engineering to provide a whole business approach to effective safety management The book helps companies to reduce and manage risk by providing analysing and improving systems in place within the company It also looks at how external factors can affect company decision making and provides a tool to make sure that a health and safety management system is strategically aligned appropriately resourced and that it maximises employee commitment Chapters on human resource management explore cultural issues and explain how to gain commitment to company objectives The book has been written for managers and supervisors working in hazardous industries OHS practitioners undergraduate and postgraduate students

Productive Safety Management Tania Van der Stap, 2024-12-20 This book discusses the realm of operational risk management exploring the intricacies of managing safety production and quality simultaneously It offers a fresh perspective on the dynamic and complex nature of risk highlighting the ever changing landscape that organisations must navigate The reliance on current understandings of residual risk is deficient particularly as systems of production are prone to degradation over time This degradation leads to an increase in entropic risk resulting in losses in daily production that if left unchecked could culminate in catastrophic consequences Productive Safety Management second edition utilises practical experience to offer context and application to the concepts surrounding risk that are introduced It explores the residual and entropic risks present in production systems before shifting focus to the same risks within organisational elements such as leadership competencies management systems and resilience The degradation of these factors can lead to a toxic enterprise culture Traditional risk management methods have resulted in the creation of functional silos This book advocates for a multidisciplinary approach positioning it as essential reading for the Fourth Industrial Revolution In this era the ability to effectively manage risks and capitalise on opportunities will be crucial for operational success This comprehensive title is designed for operational managers and supervisors and risk related professionals in engineering OSH environment and quality management Tania Van der Stap spent the last 20 years since writing the first edition of Productive Safety Management in managerial and technical positions responsible for safety health and environmental management Having experience in staff and contractor roles means she understands how to achieve results whether within the organisation owners team project team or as an external technical expert The industries and organisations she s worked in have been diverse gas mining exploration construction rail transport engineering agribusiness professional organisations and regulatory authorities She has in depth knowledge of different strategies according to each organisation s level of maturity leadership capability resource availability and most importantly the operational reality of the enterprise Tania s qualifications are in commerce which have throughout her career resulted in a business lens on operational performance She is an

unequivocal advocate of a risk and opportunity based approach to HSE production and quality **Safety for Managers**
 Graham Roberts-Phelps,1998-11 Handbook of Standards and Guidelines in Ergonomics and Human Factors Waldemar
 Karwowski,2005-12-16 A comprehensive review of international and national standards and guidelines this handbook
