The Western Herbal Tradition E-Book Graeme Tobyn, Alison Denham, Margaret Whitelegg, 2010-11-12 The Western Herbal Tradition provides a comprehensive and critical exploration of the use of plant medicines through 2000 years of history from Dioscorides to the present day It follows each of the 27 herbs through a wide range of key sources from European Arabic and American traditions including Greek Roman and Renaissance texts A rich discussion of the historical texts is balanced with current application and research The herbs have been selected on the basis of common use by practising herbalists Each illustrated monograph contains Species identification and botanical description A study of the characterisation and medicinal

use of the plants consistently drawn from featured herbals which includes the authors own translations from the Latin
Assessment of past and current texts in the transmission of herbal knowledge Consideration of traditional therapeutics
including humoral and physiomedical approaches Suggestions towards a modern experiential approach through Goethean
methodology Current evidence on pharmacological constituents Review of evidence on safety Recommendations for internal
and external uses prescribing and dosage Excellent illustrations accompany each monograph to aid learning First book to
cover broader historical perspective and discussions of issues surrounding each herb Written by leading experts who are well
known in the field Includes some monographs of which there is little material already available The bibliographic evidence
provided could support applications for registration of Herbal Medicinal Products under the provisions of the Traditional
Herbal Medicinal Product Directive An excellent valuable resource for everyone interested in herbal medicine
