leading modern audiences to project their expectations onto narratives that do not adhere to simple taxonomies and preconceived notions of genre. As rogues within the canon, they challenge the established notions of what makes an slendingasaga. Based on a critical appraisal of conceptualisations of canon and genre in saga literature, this book offers a new reading of the relationship between the individual, paranormal and social dimensions that form the foundation of these sagas. It draws on a multidisciplinary approach informed by perspectives as diverse as possible worlds theory, gender studies and social history. The post-classical sagas are not only read anew and integrated into both their generic and socio-historical context; they are met on their own terms, allowing their fascinating narratives to speak for themselves.

A story within a story, it opens in the chaotic days of 1967 when Jim, a sophomore in college confused by the times, finds a respite from the storm at an Easter family gathering and so much more. As he listens to his ninety-six-year-old great grandmother share stories from when she was young, he enters a world he never knew, one so captivating that he asks his grandfather to tell him more. Thereupon, he discovers more than he could have imagined: an extraordinary story of the life of an ordinary man of essential servitude forged on the unyielding anvil of life. Struck by what he hears, Jim realizes how important these stories are in the noise and chaos of 1967, perhaps even more so now, yet how easily they are lost. Habits is a lived picture of the habits of the heart. Alexis de Tocqueville saw when he came to America. Through his grandfather's story, Jim discovers how good habits are formed and passed from generation to generation and woven into the fabric of life and how important they are in life's perilous storms.
