Saga Of Cnac:

Saga of Cnac #53 Fletcher Hanks,2004-09-01 The stories of the army flying the dangerous Hump between India and China during WWII have been told Now for the first time you can read the stories of how the civilian pilots flew it and the lives they led two weeks a month as the highest paid pilots in the world while living in Calcutta India one of the poorest places in the world Dangerous flying led to protracted life spans and an overindulgence in the pleasures of the Orient The highest death rate of transport captains ever in the history of aviation developed boys into men in an unbelievable short period of time Flying the Hump didn't produce cripples it was being blown away completely with only a toast and an empty chair where he ate his last meal marked the finish No taps no ceremony no grave no grave stone only memories but memories without tears as we climbed in the transports in the middle of the night and took off in a blinding monsoon rain storm without a crew a professional pilot who knows no fear flying alone in the vastness of the Himalayas [The Hunt for Jimmie Browne](#)

Robert L. Willett,2020-01-01 On Tuesday November 17 1942 aircraft CNAC No 60 climbed slowly toward the Himalayas growing smaller and smaller until it finally faded from sight never to be seen again until seventy years later This is the story of one family's search for answers about the aircraft and its crew particularly the co pilot James S Browne Browne was a pilot for China National Aviation Corporation CNAC an airline jointly owned by the Republic of China and Pan American World Airways and flown under contract with the U S Army Air Corps CNAC's mission was to pioneer and fly the dangerous Hump routes over the Himalayas to deliver gasoline weapons ammunition and war goods These supplies were desperately needed to keep China in the war for if China left the war more than one million Japanese troops would be free to control the Pacific Browne and his crew were killed in a plane crash while en route to Dinjan Airfield in India for supplies Rescue missions following their disappearance were unsuccessful Nearly forty years later Robert L Willett picks up where the search left off hoping to find Browne his missing cousin After gathering crash site information on a trip to China Willett sends a search team on three ascents up Cang Shan Mountain near Dali China and finally strikes metal the scattered wreckage of Browne's C 47 From the very beginning of the discovery eight years ago Willett's efforts to excavate the site and bring Jimmie Browne home have encountered bureaucratic roadblocks with U S government agencies and the Chinese government His search and recover mission continues even today

Forgotten Aviator Barry S. Martin,2011 OUT OR WAR TORN SKIES A LEGENDARY PILOT IS BORN Royal Leonard 1905 1962 flew in and out of aviation history just on the edge of fame His exploits mirror important developments in the Golden Age of American Aviation 1925 1941 and the Sino Japanese War 1937 1945 If Royal's story were told in a novel says long time China pilot and author Felix Smith nobody would believe it all could have happened to one man Royal learned his craft at the West Point of the Air in San Antonio Texas As a Western Air Express night mail pilot he pioneered blind flying along the treacherous Rocky Mountains As a TWA pilot he introduced celestial navigation An early Airline Pilots Association ALPA officer he fought for mail plane safety at the cost of his job He flew the

Lockheed Orion in which Wiley Post and Will Rogers later crashed and attributed their fatal accident to a surprising cause. During the 1930s a handful of elite pilots were racers. Jackie Cochran selected Royal as a copilot for the MacRobertson Race of the Century between England and Australia. Royal also competed in the Bendix Death Race in a Gee Bee Widow Maker. Before World War II Royal worked for the Chinese warlord known as the Young Marshal who kidnapped Nationalist dictator Chiang Kai shek and changed the course of Chinese history. Royal provided Communist political commissar Chou En lai his first plane ride and later served as Chiang Kai shek's personal pilot. During the war Royal's roles were unique. Claire Chennault chose him to command the Flying Tigers Bomber Group. Royal briefed Colonel Jimmy Doolittle on Chinese landing fields for the Tokyo Raid. Royal Chennault and Madame Chiang Kai shek planned their own Tokyo bombing raid. Royal survived flying the Skyway to Hell over the Hump for China National Aviation Corporation. No wonder after a perilous flight war correspondent Martha Gellhorn described Royal as her hero. Author's Biography: The author has spent twenty years uncovering a rich trove of private documentary sources about the Forgotten Aviator. Martin is a Phi Beta Kappa graduate of the College of William and Mary and has an M.A. in history from the University of Washington and a J.D. from the University of California Berkeley. He is a retired Administrative Law Judge and resides in Sacramento, California with his wife Carolyn.

The Hump John D. Plating, 2011-02-08. Chronicling the most ambitious airlift in history. Carried out over arguably the world's most rugged terrain in its most inhospitable weather system and under the constant threat of enemy attack, the trans-Himalayan airlift of World War II delivered nearly 740,000 tons of cargo to China, making it possible for Chinese forces to wage war against Japan. This operation dwarfed the supply delivery by land over the Burma and Ledo Roads and represented the fullest expression of the U.S. government's commitment to China. In this groundbreaking work, the first concentrated historical study of the world's first sustained combat airlift operation, John D. Plating argues that the Hump airlift was initially undertaken to serve as a display of American support for its Chinese ally, which had been at war with Japan since 1937. However, by 1944, with the airlift's capability gaining momentum, American strategists shifted the purpose of air operations to focus on supplying American forces in China in preparation for the U.S.'s final assault on Japan. From the standpoint of war materiel, the airlift was the precondition that made possible all other allied military action in the China-Burma-India theater, where Allied troops were most commonly inserted, supplied, and extracted by air. Drawing on extensive research that includes Chinese and Japanese archives, Plating tells a spellbinding story in a context that relates it to the larger movements of the war and reveals its significance in terms of the development of military air power. The Hump demonstrates the operation's far-reaching legacy as it became the example and prototype of the Berlin Airlift, the first air battle of the Cold War. The Hump operation also bore significantly on the initial moves of the Chinese Civil War, when Air Transport Command aircraft moved entire armies of Nationalist troops hundreds of miles in mere days in order to prevent Communist forces from being the ones to accept the Japanese surrender.
