Collyer,2015-02-12 This wide reaching handbook offers a new perspective on the sociology of health illness and medicine by stressing the importance of social theory Examining a range of classic and contemporary female and male theorists from across the globe it explores various issues including chronic illness counselling and the rising problems of obesity

Routledge Handbook of Body Studies Bryan Turner,2012-07-24 In the last three decades the human body has gained increasing prominence in contemporary political debates and it has become a central topic of modern social sciences and humanities Modern technologies such as organ transplants stem cell research nanotechnology cosmetic surgery and cryonics have changed how we think about the body In this collection of thirty original essays by leading figures in the field these issues are explored across a number of theoretical and disciplinary perspectives including pragmatism feminism queer theory post modernism post humanism cultural sociology philosophy and anthropology A wide range of case studies which include cosmetics diet organ transplants racial bodies masculinity and sexuality eating disorders religion and the sacred body and disability are used to appraise these different perspectives In addition this Handbook explores various epistemological approaches to the basic question what is a body It also offers a strongly themed range of chapters on empirical topics that are organized around religion medicine gender technology and consumption It also contributes to the debate over the globalization of the body how have military technology modern medicine sport and consumption led to this contemporary obsession with matters corporeal The Handbook s clear direct style will appeal to a wide undergraduate audience in the social sciences particularly for those studying medical sociology gender studies sports studies disability studies social gerontology or the sociology of religion It will serve to consolidate the new field of body studies **Towards a Sociology of**

Cancer Caregiving Rebecca E. Olson,2016-03-09 Once a synonym for death cancer is now a prognosis of multiple probabilities and produces a world of uncertainty for carers Drawing on rich in depth interview data and employing interactionist theories Towards a Sociology of Cancer Caregiving explores carers lived experiences paying close attention to the ways in which spouse carers manage the ambiguity that pervades their orientations to the future their responsibilities and their emotions A detailed exploration of the temporal and emotional journeys of spouse carers of cancer patients this volume raises and responds to new questions about how to conceptualise informal caregiving offering a fresh theorisation of the uncertainty that now characterises cancer As such it will appeal to scholars of the sociologies of emotion time and identity and all those interested in the question of how to support informal carers **General Radiography** Christopher M.

Hayre, William A.S. Cox, 2020-07-15 With chapters from globally recognized academics *General Radiography* shows the multifaceted approach to general radiography and how it enhances healthcare delivery Potentially influential to how healthcare delivery is offered it begins with the pertinent chapters examining image acquisition and dose optimization in diagnostic radiography Next chapters reflect and critically discuss aspects central to patient care and imaging within trauma critical care and pediatric situations The final section of this book then explores the learning teaching and education in the field of diagnostic radiography with novel strategies illustrated *A Companion to Medical Anthropology* Merrill Singer, Pamela I. Erickson, 2015-04-20 *A Companion to Medical Anthropology* examines the current issues controversies and state of the field in medical anthropology today Provides an expert view of the major topics and themes to concern the discipline since its founding in the 1960s Written by leading international scholars in medical anthropology Covers environmental health global health biotechnology syndemics nutrition substance abuse infectious disease and sexuality and reproductive health and other topics **Medical Education for the 21st Century** Michael S. Firstenberg, Stanislaw P. Stawicki, 2022-06-01 Medical education has undergone a substantial transformation from the traditional models of the basic classroom laboratory and bedside that existed up to the late 20th century The focus of this text is to review the spectrum of topics that are essential to the training of 21st century healthcare providers Modern medical education goes beyond learning physiology pathophysiology anatomy pharmacology and how they apply to patient care Contemporary medical education models incorporate multiple dimensions including digital information management social media platforms effective teamwork emotional and coping intelligence simulation as well as advanced tools for teaching both hard and soft skills Furthermore this book also evaluates the evolving paradigm of how teachers can teach and how students can learn and how the system evaluates success *The Therapy Industry* Paul Moloney, 2013-06-07 Across the world anxiety stress and depression are on the increase a trend which looks set to continue as austerity measures bite The official response tells people that unhappiness is just a personal problem rather than a social one Written by a practising psychologist with nearly thirty years experience in the fields of mental health and learning disabilities *The Therapy Industry* offers a concise accessible and critical overview of the world of psychological practice in Britain and the USA Paul Moloney argues that much therapy is geared towards compliance and acceptance of the status quo rather than attempting to facilitate social change The Therapy Industry fundamentally challenges our conceptions of happiness and wellbeing Moloney argues that therapeutic and applied psychology have little basis in science that their benefits are highly exaggerated and they prosper because they serve the interests of power **Religious Tolerance, Education and the Curriculum** Elizabeth Burns Coleman, Kevin White, 2011-10-30 The creation of a secular education system was one of the great social experiments designed to break down religious intolerance within society One element of this design was administrative involving the creation of non denominational schools and another element involved a centralised curriculum In this collection of essays political

philosophers lawyers sociologists theologians and educators explore the role of state schools in promoting tolerance within 21st century multicultural religiously pluralistic societies How may different models of liberalism in the secular state have different outcomes in relation to religious tolerance in the education system Does a state education system have a role in teaching values such as tolerance and if so how is this best achieved How are epistemology and truth connected with tolerance How does the ideal of a value free secular education mask the values that the secular state teaches The essays are written from both theoretical and practical perspectives and engage with each other directly to address one of the significant issues of our day This is the fourth volume arising from a series of conferences on the theme of Negotiating the Sacred Previous volumes have included Blasphemy and Sacrilege in a Multicultural Society Blasphemy and Sacrilege in the Arts and Medicine Religion and the Body **American Reference Books Annual** Bohdan S. Wynar, 2007 1970 issued in 2 vols v 1 General reference social sciences history economics business v 2 Fine arts humanities science and engineering Recovery, Mental Health and Inequality Lynn Tang, 2017-07-06 Mental health has long been perceived as a taboo subject in the UK so much so that mental health services have been marginalised within health and social care There is even more serious neglect of the specific issues faced by different ethnic minorities This book uses the rich narratives of the recovery journeys of Chinese mental health service users in the UK a perceived hard to reach group and largely invisible in mental health literature to illustrate the myriad ways that social inequalities such as class ethnicity and gender contribute to service users distress and mental ill health as well as shape their subsequent recovery journeys Recovery Mental Health and Inequality contributes to the debate about the implementation of recovery approach in mental health services and demonstrates the importance of tackling structural inequalities in facilitating meaningful recovery This timely book would benefit practitioners and students in various fields such as nurses social workers and mental health postgraduate trainees The Oxford Handbook of Sport and Society Lawrence A. Wenner, 2022-09-27 Sport has come to have an increasingly large impact on daily life and commerce across the globe From mega events such as the World Cup or Super Bowl to the early socialization of children into sport the study of sport and society has developed as a distinctly wide ranging scholarly enterprise centered in sociology sport studies and cultural media and gender studies In The Oxford Handbook of Sport and Society Lawrence Wenner brings together contributions from the world's leading scholars on sport and society to create the premier comprehensive and interdisciplinary reference for scholars and students looking to understand key areas of inquiry about the role and impacts of sport in contemporary culture The Handbook offers penetrating analyses of the key ways that today's outsized sport is integrated into the lives of both athletes and fans and increasingly shapes the social fabric and cultural logics across the world Featuring 85 leading international scholars the volume is organized into six sections society and values enterprise and capital participation and cultures lifespan and careers inclusion and exclusion and spectator engagement and media To aid comprehension and comparison each chapter opens with a brief introduction to the area of

research and features a common organizational scheme with three main sections of key issues approaches and debates to guide scholars and students to what is currently most important in the study of each area Written at an accessible level and offering rich resources to further study each topic this handbook is an essential resource for scholars and students as well as general readers who wish to understand the growing social cultural political and economic influences of sport in society and our everyday lives

Crime, Genes, Neuroscience and Cyberspace Tim Owen, 2017-09-18 This book applies Owen's unique genetic social framework to the study of crime and criminal behaviour with an emphasis on cybercrime Moving beyond challenges which confront contemporary criminological theorizing such as the stagnation of critical criminology the relativistic nihilism of the cultural turn posthumanism and virtual criminology the author codifies and applies the latest version of the framework to the study of crime both in and out of cyberspace Drawing upon evolutionary psychology behavioural genetics and the philosophy of Heidegger he introduces new terms such as Neuro Agency and notions of Embodied Cognition into criminological theorizing Adopting a soft compatibilist approach to free will and Realist ontology Owen's meta theoretical focus provides a new direction for criminological theorizing in particular in the direction of the conceptualization and prediction of cyber violence Exciting and timely this book will appeal to scholars and advanced students of criminology law sociology social policy psychology philosophy policing and forensic investigation

New Directions in Criminological Theory Steve Hall, Simon Winlow, 2012-06-25 This edited collection brings together established global scholars and new thinkers to outline fresh concepts and theoretical perspectives for criminological research and analysis in the 21st century Criminologists from the UK USA Canada and Australia evaluate the current condition of criminological theory and present students and researchers with new and revised ideas from the realms of politics culture and subjectivity to unpack crime and violence in the precarious age of global neoliberalism These ideas range from the micro realm of the personality disorder to the macro realm of global power crime Rejecting or modifying the orthodox notion that crime and harm are largely the products of criminalisation and control systems these scholars bring causes and conditions back into play in an eclectic yet thematic way that should inspire students and researchers to once again investigate the reasons why some individuals and groups elect to harm others rather than seek sociability This collection will inspire new criminologists to both look outside their discipline for new ideas to import and to create new ideas within their discipline to reinvigorate it and further strengthen its ability to explain the crimes and harms that we see around us today This book will be of particular interest to academics and both undergraduate and postgraduate students in the field of criminology especially to those looking for theoretical concepts and frameworks for dissertations theses and research reports
