the mysteries of nature and human destiny As a result of the West's exposure during the Middle Ages to the astrological

inspiration for Western artists In this latest volume in the popular Guide to Imagery series the author presents a careful

analysis of occult iconography in many of the great masterpieces of Western art calling out key features in the illustrations for discussion and interpretation Astrological symbols decorated medieval churches and illuminated manuscripts as well as fifteenth century Italian town halls and palaces The transformational zymology of magic and alchemy that enlivened the work of a wide range of Renaissance artists including Bosch Brueghel Durer and Caravaggio found renewed expression in the visionary works of nineteenth century artists such as Fuseli and Blake as well as in the creative output of the twentieth century's Surrealists
