Arabia Jörg Matthias Determann, 2013-10-25. Saudi Arabia is generally and justifiably viewed as a country with some of the fewest democratic institutions and the weakest traditions of pluralism. It is therefore surprising to learn that at least in one corner of the Saudi world there can be found a plurality of opinions and lively debate. Jörg Matthias Determann brings this element to light by analysing an important field of cultural activity in Saudi Arabia historical writing. Since the 1920s local

tribal Shi'i and dynastic histories have contributed to a growing plurality of narratives. Paradoxically this happened because of the expansion of the Saudi state including state provision of mass education. It was also due to globalizing processes such as the spread of the internet. In challenging the widely held perception of Saudi Arabia as an irredeemably closed and monolithic society, historiography in Saudi Arabia provides a deeper understanding of modern Arab historiography, the Saudi state and education and scholarship in the Middle East.

Para-Sites George E. Marcus, 2000-04-15. *Para Sites* the penultimate volume in the Late Editions series explores how social actors located within centers of power and privilege develop and express a critical consciousness of their own situations. Departing from the usual focus of ethnography and cultural analysis on the socially marginalized, these pieces probe subjects who are undeniably complicit with powerful institutional engines of contemporary change. In each case the possibility of alternative thinking or practices is in complex relation to the subject's source of empowerment. These cases challenge the condition of cynicism that has been the favored mode of characterizing the mind set of intellectuals and professionals comfortable in their lives of middle class consumption and work. In their effort to establish *para sites* of critical awareness parallel to the levels of political and economic power at which they function, these subjects suggest that those who lead ordinary lives of modest power and privilege might not be parasites in relation to the systems they serve but may be creating unique and independent critical perspectives.
