Sail and Deliver! Ronald Preedy,1989 **Yachting** ,1986-07 **Sailing into the Past** Jenny Bennett,2009-06-18

Until recently there was little practical knowledge of the ships of the distant past We could only surmise as to the manner in which a Viking ship sailed or how fast a Greek trireme could be rowed The building of accurate replicas over the past generation has changed all that and what has been learnt about the ships and boats of our ancestors has radically changed our perceptions of sailing and voyaging This beautifully illustrated new book charts those discoveries The worlds leading authorities look at individual replicas and discuss what they have taught us Boris Rankov and John Coates for example discuss the Greek trireme while Antonia Macarthur outlines the lessons learnt on Cooks Endeavour Each chapter deals with a particular vessel and construction sail plans and the intended role are covered before an analysis of sailing performance is discussed Windward ability seakindliness speed and ease of handling are all dealt with General chapters by Richard Woodman and Sean McGrail set the scene A fascinating work which offers the most accessible view yet as to how the ships of our seafaring forbears affected the manner in which they traded fought and explored **Cruising World** ,1981-07

Solar Sailing Colin R. McInnes,2013-11-27 Solar sailing offers the possibility of low cost long distance missions impossible for any other type of conventional spacecraft The book provides a detailed account of solar sailing at a high technical level but in a way accessible to the scientifically informed layman Solar sail orbital dynamics and solar radiation pressure form the foundations of the book but the engineering design of solar sails is also considered along with potential mission applications This book introduces the subject and at the same time provides a technical reference source **Sail Trim** Peter Hahne,2010-08-04 Explains the art of good sail trim with the aid of superb colour diagrams and photographs
