Mustin,1994-01-22 Mustin s part by part look at hull deck rig and machinery is both a minicourse for transforming used boat shopping from a game of craps to a science and the first step in a holistic boat maintenance program His discussion of the significance of cracks found in aging hulls and decks is the most thorough in print He is not shy in assessing the lack of regulation of professional surveyors nor does he shrink from pointing a finger at shoddy building practices Having a used boat surveyed is a critical prelude to buying it Yet a professional survey is expensive several hundred dollars Surveying Fiberglass Sailboats will enable you to conduct your own surveys while narrowing the field then monitor a professional surveyor s performance when selecting your target boat **Catalog of Copyright Entries.
