Sailing Adventures in Paradise Vincent Bossley, 2015-03-05 Somewhere between the Galapagos Islands en route to the Marquesas Group in the darkest of nights at approximately six degrees south of the equator a sailboat is whispering along under full sail The fresh south east trades are pushing her sleek hull through the coal black water at around eight knots The man standing at the wheel wearing ragged shorts only in the warm tropical breeze gently fanning him over the port quarter helms his craft by starlight alone All lights have been doused on this moonless night and even the masthead white light has been switched off Fixing his eyes on a star group which arcs back and forth over the masthead as it sways to the roll of the ocean he has been sailing his yacht like this for an hour or more He could put her onto autohelm but is so absorbed in his task that he feels he could stand watch all night Accompanying him is a pod of dolphins gambolling along and playing with this laggardly and sluggish thing sharing their watery world which adds to the delight and satisfaction of the moment Surrounded by a three hundred and sixty degree inverted bowl he is totally confounded by the absolute multitude cornucopia of stars before him in this tiny quadrant of the ocean How many more must there be that cannot be seen from this position With no degrading light from any other source the stars shine brightly and they are countless Breathtaking in their abundance he comes to the conclusion that life exists elsewhere in the universe other than just on our planet Not that this is a new thought to him but sailing in these conditions rams it home with greater significance and whilst carrying the feeling of being such a tiny little speck in the scope of things he also feels very strongly to be part of the great flowing river of life At this moment absorbing the wonder he would not want to be anywhere else on the planet Sailboat cruising provides many cathartic moments such as this all character building and never to be forgotten Bringing them together is what has led this author to write about his own sailing adventures in paradise *Sailing Adventures in Paradise* chronicles the many adventures of the author over several years cruising in the

waters of the Caribbean and then into the oceans of both the Atlantic and Pacific Detailing the many adventures incidents trials and tribulations that arose most times unexpectedly and how the crew overcame these adversities with panic initially then calm purpose and persistence most times in that order Told through the eyes of the boat it introduces a refreshing and intimate insight of how life at sea on passage for lengthy periods can be a challenge not only for the crew but the boat also and how these can be overcome to lead into one of the most wonderful character building adventures to be had today at any age One old Sea Dog said to the author prior to setting sail that he would not necessarily be qualified to make the trip at the outset but certainly would be by the time the sailboat voyage was over in other words a sailor planning this sailing adventure would never know everything before leaving but not to hang back but be as best prepared as possible and get out there leave port and set sail The ebook includes 101 dollar saving tips that planning voyagers would never think of before leaving port These tips are hyperlinked into the narrative and could save cruising sailors many hundreds if not thousands of dollars over the duration of their sailing adventure of a lifetime voyage Essential and most enjoyable reading for all armchair sailors and all those planning to sail off on their own yachting adventure over the horizon into the oceans of this beautiful planet of ours Want to know more simply click on the Look inside feature button above and start on your very own exciting road to sailing adventures

Sail Tales Captain Robert Engel, 2009-08-05 Sail Tales is about the adventures a humble sailboat owner had over the years So where does one start writing about these adventures You start at the beginning That beginning was in 1967 when I was helping a friend of mine Frank rebuild an old wooden boat that he had bought Frank took the whole boat apart and then rebuilt it from the frames up It was a sleek little craft and I found myself involved in his project Frank found a similar craft and with his promise of help I bought it I spent the whole winter and most of the spring doing the things that had to be done to the boat to get it ready for the summer of 69 I knew nothing about sailing But how hard could it be to learn I soon found out My sailing adventures started that summer I learned quickly that unlike a power boat a sailboat is not a craft that you get aboard turn a key and then drive it like a car You have to sail the boat You have to do what the wind lets you do You can't go directly where you want to go because the wind won't allow it You have to finesse you have to be diplomatic you have to learn to tweak a sail rather than over trim Well I learned to get that sailboat from point to point I also learned that time on a sailboat is not the same as time on land and I learned this on my very first trip on my first sailboat That three hour trip ended up taking thirteen hours Read about it The time of a sailboat trip can not be predicted If you need to get to a certain place at a certain time take a bus not a sailboat An afternoon trip has more than once become a late nighter Leave your watches ashore That's what I tell everyone before they step foot aboard I don't know what time we'll be back but I'm certain that we will be back My very first sailboat trip was not a late nighter but rather an early morning return Speaking of time How long does it take you to hang a calendar on your wall You get a stick pin and put it through a hole in the calendar and stick the pin in the cork board Thirty seconds It took me the better part of three hours to hang a calendar on the boat

First I had to get the tape from the old calender off the wall For this project I had to find the razor blade scrapper Then I had to run to the hardware store to get new blades for it The scrapper got the top layer of the tape off the wall but the sticky part of the tape just rolled up into little balls I had to go back to the hardware store for some solvent to get the sticky balls off the wall Then and only then was I able to re tape the new calender to the wall I have since put the scrapper in its place so I can find it next time I hope I remember that place Imagine what a project it is to install a new pedestal steering system or an new diesel engine Imagine the time it takes to make an old boat a safe craft a boat ready to sail and the keyword is safe It took me the better part of four years to make my Morgan 38 the boat I wanted it to be And notice Im not saying anything about the cost Thats another story And these are some of the stories I tell This is the third boat I have redone But it is the last boat that I will redo Im getting too old for this rebuilding stuff Parts of Sail Tales tells about projects such as what I have just described But the majority of the stories are about sailing trips where something happens If you are a sailor or if you own a sailboat sit back and try to remember trips that were dull and boring They dont pop into your mind But what does pop are the adventures the thrill of the wind that is blowing just a bit harder than you would like You remember the trips where the rail is in the water for most of the day and how you were able to keep the boat under control You remember the trips where there was no wind and the day became a motor day You remember entering an anchorage and finding someone there from your marina or someo
