The Gospel According to St. Therese Joseph F. Schmidt, FSC, 2017-09-01 Thérèse of Lisieux is one of the most popular saints of our time and for good reason As Pope St John Paul II wrote when declaring her a doctor of the Church Thérèse's little way is nothing

Boeve, Hans Geybels, Stijn Van den Bossche, 2005 This volume consists of several contributions to a refined understanding of religious experience in view of contemporary theological epistemology Diverse sample studies taken from the extensive field of religion theology and religious studies reveal that religious experience is today clearly a pivotal issue More specifically this is made evident in modern theological hermeneutics and in the anti modern and or post modern reactions thereto the theology of world religions and inter religious dialogue the contemporary resurgence of religiosity in Western society and culture and the so called turn to religion in contemporary continental philosophy It would appear from such studies that the category of religious experience is frequently called upon to clarify or explain the phenomenon of religion and religiosity on the one hand and to support and legitimise religious positions or the critique thereof on the other Because of the loss of plausibility of tradition bound religiosity and of foundational so called onto theological schemes religious experience has come to constitute for many the last or latest point of departure and anchor for religion and religious thinking This is certainly the case with respect to tendencies within contemporary Christian traditions and theological reflection In a multitude of ways and from a variety of different perspectives religious experience and experience of transcendence or of the divine have gained a prominent place in philosophical and fundamental theological conceptual schemes In reaction to this other authors have denied the very primacy given to religious experience in reflecting upon faith pointing to the constitutive role of tradition and narrative without which there is no religious experience From all this follows that the category of religious experience is in great need of reconceptualisation not least from a theological point of view On the one hand religious experience is all too easily called upon to legitimise religious claims often against tradition and on the other hand the category has become misleading in so far as it is tainted by the modern scientific understanding of experience in reaction to which tradition is then easily invoked to protect the core of religion Both young scholars at the preceding junior conference and senior scholars during the conference s paper sessions presented from diverse perspectives new ways to conceive of religious experience in view of today s challenges of secularisation religious plurality the aestheticisation of

religion etc The selected contributions have been arranged in four thematically oriented parts Approaching Religious Experience in a Postmodern Age Modern re Thinking of Religious Experience Liberating Religious Experience and Challenges for Spirituality Edith Stein: Women, Social-Political Philosophy, Theology, Metaphysics and Public History Antonio Calcagno, 2015-11-11 This volume explores the work and thought of Edith Stein 1891 1942 It discusses in detail and from new perspectives the traditional areas of her thinking including her ideas about women feminism theology and metaphysics In addition it introduces readers to new and or understudied areas of her thought including her views on history and her social and political philosophy The guiding thread that connects all the essays in this book is the emphasis on new approaches and novel applications of her philosophy The contributions both extend the interdisciplinary implications of Stein's thinking for our contemporary world and apply her insights to questions of theatre public history and biographical representation education politics autism theological debates feminism sexuality studies and literature The volume brings together for the first time leading scholars in five language groups including English German Italian French and Spanish speaking authors thereby reflecting an international and cosmopolitan approach to Stein studies *Christian Spirituality* Arthur Holder, 2009-09-10 Christian Spirituality The Classics is a unique and comprehensive guide to thirty key Christian spirituality texts Ranging from Origen and Augustine to Jonathan Edwards Th r se of Lisieux and Thomas Merton it offers a view of the texts which is founded in scholarship but which also presents them as living documents that invite even compel contemplative reflection and existential response Each chapter briefly describes the classic text s author and audience gives a synopsis of its contents suggests some of its influence in history and then explores aspects of the text s meaning for readers today Key themes include What is the meaning of life How can human beings find truth How can they discover who they really are How can they live together in peace How can they live more fully in God s presence in this world and be united with God in the world to come The scholars who have written these chapters are all experts on their respective topics but they wear their learning lightly Anyone wishing to discover the riches of Christian spirituality will find this the ideal introduction and should be able to progress to a deeper understanding of the texts themselves *Shirt of Flame* Heather King, 2011-10-01 If you have not read Heather King before her honesty may shock you In this remarkable memoir you will see how a convert with a checkered past spends a year reflecting upon St Th r se of Lisieux and discovers the radical faith true love and abundant life of a cloistered 19th century French nun **The Saint for the Third Millennium** Charles Patrick Connor, 2007 In his well researched inimitable and highly readable style Father Connor sheds new insights into the life and message of this great saint who has much to say to us today
