Haki Antonsson,2007-04-30 The focus of this book is on the cult of St Magn s Earl of Orkney who was killed in 1116 1117 in an inter dynastic dispute More specifically it looks at the emergence of the Magn s cult in the twelfth century and the hagiographical corpus that was composed in his honour by Icelandic and English men of letters These aspects of the Orcadian cult are not however examined in isolation but are rather placed within broader Scandinavian and European contexts Moreover they provide points of departure for the examination of important topics relating to religious life and literature in early Christian Scandinavia such as the earliest cults of native saints and the perception of martyrdom **The**

Northern Earldoms Barbara E. Crawford,2013-08-08 The medieval earldoms of Orkney and Caithness were positioned between two worlds the Norwegian and the Scottish They were a maritime lordship divided or united by the turbulent waters of the Pentland Firth This unlikely combination of island and mainland territory survived as a single lordship for 600 years against the odds Growing out of the Viking maelstrom of the early Middle Ages it became an established and wealthy principality which dominated northern waters with a renowned dynasty of earls Despite their peripheral location these earls were fully in touch with the kingdoms of Norway and Scotland and increasingly subject to the rulers of these kingdoms How they maintained their independence and how they survived the clash of loyalties are themes explored in this book from the early Viking age to the late medieval era when the powerful feudal Sinclair earls ruled the islands and regained possession of Caithness This is a story of the time when the Northern Isles of Scotland were part of a different national entity which explains the background to the non Gaelic culture of this locality when links across the North Sea were as important as links with the kingdom of Scotland to the south *The Legends of the Saints in Old Norse-Icelandic Prose* Kirsten

Wolf,2013-10-30 Saints legends form a substantial portion of Old Norse Icelandic literature and can be found in more than four hundred manuscripts or fragments of manuscripts dating from shortly before the twelfth century to the 1700s With *The Legends of the Saints in Old Norse Icelandic Prose* Kirsten Wolf has undertaken a complete revision of the fifty year old handlist *The Lives of the Saints in Old Norse Prose* This updated handlist organizes saints names manuscripts and editions of individual lives with references to the approximate dates of the manuscripts as well as modern Icelandic editions and translations Each entry concludes with secondary literature about the legend in question These features combine to make *The Legends of the Saints in Old Norse Icelandic Prose* an invaluable resource for scholars and students in the field
