

Sainte-chapelle Paris

Charles DESMAZE

Sainte-Chapelle Paris:

The Sainte-Chapelle and the Construction of Sacral Monarchy Meredith Cohen, 2014-11-24 This book offers a novel perspective on one of the most important monuments of French Gothic architecture the Sainte Chapelle constructed in Paris by King Louis IX of France between 1239 and 1248 especially to hold and to celebrate Christ's Crown of Thorns Meredith Cohen argues that the chapel's architecture decoration and use conveyed the notion of sacral kingship to its audience in Paris and in greater Europe thereby implicitly elevating the French king to the level of suzerain and establishing an early visual precedent for the political theories of royal sovereignty and French absolutism By setting the chapel within its broader urban and royal contexts this book offers new insight into royal representation and the rise of Paris as a political and cultural capital in the thirteenth century

The Sainte-Chapelle and the Construction of Sacral Monarchy Meredith Cohen, 2015 This book offers a novel perspective on one of the most important monuments of French Gothic architecture the Sainte Chapelle constructed in Paris by King Louis IX of France between 1239 and 1248 especially to hold and to celebrate Christ's Crown of Thorns Meredith Cohen argues that the chapel's architecture decoration and use conveyed the notion of sacral kingship to its audience in Paris and in greater Europe thereby implicitly elevating the French king to the level of suzerain and establishing an early visual precedent for the political theories of royal sovereignty and French absolutism By setting the chapel within its broader urban and royal contexts this book offers new insight into royal representation and the rise of Paris as a political and cultural capital in the thirteenth century

The Sainte-Chapelle Michel Dillange, 1985 A World History of Architecture Marian Moffett, Michael W. Fazio, Lawrence Wodehouse, 2003 The Roman architect and engineer Vitruvius declared firmitas utilitas and venustas firmness commodity and delight to be the three essential attributes of architecture These qualities are brilliantly explored in this book which uniquely comprises both a detailed survey of Western architecture including Pre Columbian America and an introduction to architecture from the Middle East India Russia China and Japan The text encourages readers to examine closely the pragmatic innovative and aesthetic attributes of buildings and to imagine how these would have been praised or criticized by contemporary observers Artistic economic environmental political social and technological contexts are discussed so as to determine the extent to which buildings met the needs of clients society at large and future generations

Visualizing Kingship in the Windows of the Sainte-Chapelle Alyce A. Jordan, 2002 This study of the spectacular ensemble of windows of the Sainte Chapelle in Paris the first in depth examination of the glass in nearly half a century asks the question are the scenes depicted in the stained glass comprehensible as story Through an exhaustive study of textual and visual restoration records and extant authentic panels Jordan posits reconstructions of the chapel's large scale windows as they would have appeared in the 13th century Jordan's work employs medieval understandings of narrative theory and practice to demonstrate a coherent and intertextual story of kingship in the windows implicit antiphonal invocation of Biblical heroes and Capetian monarchy Each chapter examines a formal aspect of the narratives depicted in the

windows and elucidates it through comparison with similar techniques employed in medieval literature and articulated in the ars poetriae rhetorical treatises devoted to the theory and practice of medieval storytelling In the final chapter Jordan draws on both the narrative devices employed in the biblical windows and the evidence of her reconstructions to argue for a new identification of the so called Relics window as a Royal window chronicling the history of the kings of France Jordan convincingly demonstrates that far from a cacophonous assemblage of images the Sainte Chapelle glass adeptly employs a variety of fashionable narrative devices and proposes that the chapel s Old Testament windows were manipulated in such a way as to craft from the biblical narratives a visual essay on kingship that articulates the foremost components of French medieval monarchic rule and the specifically Capetian claims to sacral kingship In both its theoretical scope and the originality of its reconstructions of the windows Visualizing Kingship provides an important contribution to Art History and intellectual history more generally

La Sainte Chapelle Du Palais de Justice de Paris. [With Plates.]. Charles DESMAZE, 1873

The Architecture of Paris Andrew Ayers, 2004 The author here presents an architectural history of Paris stretching from the 3rd century BC up until the end of the 20th century

The Making of Saint Louis Marianne Cecilia Gaposchkin, 2008 Canonized in 1297 as Saint Louis King Louis IX of France r 1226 1270 was one of the most important kings of medieval history and also one of the foremost saints of the later Middle Ages As a saint Louis became the centerpiece of an ideological program that buttressed the ongoing political consolidation of France and underscored Capetian claims of sacred kingship M Cecilia Gaposchkin reconstructs and analyzes the process that led to the monarch s canonization and the consolidation and spread of his cult Differing political and religious ideals produced competing images of the sanctity of Louis in late thirteenth and early fourteenth century France Drawing on hagiography sermons and liturgical evidence the latter a rich but little explored historical source Gaposchkin shows how various groups including Dominicans Cistercians and Franciscans and individuals such as Philip the Fair and Joinville used commemoration of the saint king to sanctify their own politics and notions of

identity and religious virtue Louis cult was disseminated to a wider nonelite public through sermons in the fourteenth and fifteenth centuries and then revived by the Bourbon kings in the seventeenth century In deepening our knowledge of this royal saint this elegantly written book opens the curtain on the religious sensibilities and secular politics of a transitional period in European history *Notre-Dame de Paris and the Sainte-Chapelle* Yves Bottineau, 1967 *The Sainte-Chapelle in Paris: a Study of the Tradition of the Private Chapel in the Ile-de-France from 1160 to 1248 and the Continuity of Its Plan* Carl F. Barnes, 1959 *St Stephen's Chapel and the Palace of Westminster* Tim Ayers, J P D Cooper, Elizabeth Hallam Smith, Caroline Shenton, 2024-10

Traces the history of a magnificent landmark in the history of late medieval art and architecture As the principal royal chapel in the medieval Palace of Westminster St Stephen's was at the centre of worship for the Plantagenets a major collegiate foundation of a new kind for the mid fourteenth century and a community of national significance in the development of sacred polyphony During the Reformation the Chapel was converted into a meeting place for the House of Commons which it remained for 300 years shaping the development of British political culture Its influence continues to be felt today in the design of the Commons chamber Following the disastrous Palace fire of 1834 the site of the upper chapel was rebuilt as St Stephen's Hall a gallery of national history leading to the Central Lobby of the Houses of Parliament This book tells the story of St Stephen's Chapel from the thirteenth century to the present day Sixteen chapters explain the building and its religious life its political significance and the antiquarian rediscovery of its former magnificence Contributors highlight the interaction between visual and political culture the contexts of kingship and international rivalry that informed the foundation and construction of chapel and college the effect of medieval St Stephen's on the development of the House of Commons the adaptation and re use of St Mary Undercroft and the creation of St Stephen's Hall in the 1840s The hall would become a site of Suffragette activism in the campaign for Votes for Women marked today by a monumental artwork *New Dawn* which is the focus of the final chapter *Paris* Alexandra Gajewski, John McNeill, 2023-07-24

Paris The Powers that Shaped the Medieval City considers the various forces royal monastic and secular that shaped the art architecture and topography of Paris between c 1100 and c 1500 a period in which Paris became one of the foremost metropolises in the West The individual contributions written by an international group of scholars cover the subject from many different angles They encompass wide ranging case studies that address architecture manuscript illumination and stained glass as well as questions of liturgy religion and social life Topics include the early medieval churches that preceded the current cathedral church of Notre Dame and cultural production in the Paris area in the late 12th and early 13th centuries as well as Paris's chapels and bridges There is new evidence for the source of the c 1240 design for a celebrated window in the Sainte Chapelle an evaluation of the liturgical arrangements in the new shrine choir of Saint Denis built 1140-44 and a valuable assessment of the properties held by the Cistercian Order in Paris in the Middle Ages Also the book investigates the relationships between manuscript illuminators in the 14th century and representations of Paris in

manuscripts and other media up to the late 15th century Paris The Powers that Shaped the Medieval City updates and enlarges our knowledge of this key city in the Middle Ages **The Grove Encyclopedia of Medieval Art and Architecture** Colum Hourihane,2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture **Reading the Reverse Façade of Reims Cathedral** DonnaL. Sadler,2017-07-05

Though long recognized as one of the most beautiful works from the second half of the thirteenth century the magnificent sculptural program of the reverse façade at Reims Cathedral has received little in the way of scholarly attention Interpreting the iconography in the light of Latin texts associated with the building its history and its ceremonial use Donna Sadler assesses the significance of the reverse façade in light of other thirteenth century visual programs associated with the court of Louis IX The book's chapters deal with the history of the cathedral and its architectural antecedents the iconographic message of the visual program the meaning of the reverse façade and how it intersects with the overall iconography the function of the verso and how it is enhanced by the marriage of form and content and a consideration of contemporary works linked to the court of Saint Louis concluding with a brief look at the new roles sculpture assumes as it migrates inside cathedrals Ultimately this book reveals how the imagery on the reverse façade not only conforms to a system of memory and mode of medieval narratology but also articulates a dominant ideological position regarding the interdependence of ecclesiastical and royal powers

Piety and Politics Martha Mel Stumberg Edmunds,2002 This book provides the first comprehensive analysis of Louis XIV's magnificent final chapel at Versailles completed in 1710 near the end of his long reign 1643 1715 Construction begun in 1699 on foundations of 1689 spanned the offices of two premiers architects du roi Jules Hardouin Mansart and Robert de Cotte Eight painters and over 100 sculptors participated in the monumental undertaking which remains almost unchanged today An unusually large number of archival documents drawings and early texts about the chapel allow a detailed reconstruction of its history and meaning Given Louis XIV's renown as one of the great kings and art patrons of all history and the universal definitions of his power in terms of divine kingship the story of his palace chapel interests all historians of the ancien régime **BOOK JACKET Title Summary** field provided by Blackwell North America Inc All Rights Reserved

Crusader Art in the Holy Land, From the Third Crusade to the Fall of Acre Jaroslav Folda,2005-09-05 Publisher Description **Fodor's Around Paris with Kids: 68 Great Things to Do Together in the City and Beyond** Emily Emerson Le Moing,2008-04 Providing helpful guides to traveling with children these easy to use travel handbooks offer a wide variety of fun filled educational hassle free activities available in cities and regions around the world covering everything from family days to puppet theaters and museums along with planning tips addresses admission prices age
