Destruction of St. Pierre, Martinique J Herbert Welch, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1902 edition Excerpt The Destruction of St Pierre chapter I The Lesser Antilles are inconspicuous on the map of the West Indies Stretching between Porto Rico and the northeastern coast of South America in a line that curves like the crescent of the new moon they are so overshadowed by Cuba Hayti and Porto Rico as to attract little or no attention in a hasty scrutiny of a chart of the Islands of the Caribbean They have played no great part in the world s history but what little prominence they have had has been the prominence of misfortune They have been the scenes of bloody conflicts between Spanish English and French colonists They have been pillaged by pirates devastated by floods and hurricanes shaken by earthquakes Despite the fact that they lie bathed in almost continual sunshine seeming to be very paradises with their noble hills clad in vivid greens with their quaint little villages climbing up the slopes and the soft breath of the tropics fanning them they are no favorites of Dame Fortune The term Unhappy Isles is one of the appellations by which they are best known to the world at large But all the catastrophes that the years have heaped upon the Lesser Antilles have been paled into insignificance by the stupendous disaster that visited the Island of Martinique on the beautiful May morning of 1902 Nature gave but little warning of her gigantic outburst Mont Pelee rising to a height of nearly five thousand feet on the northwestern coast of Martinique looked as peaceful and serene a few days before it belched forth its blast of death as it had looked for years To passengers on steamers that skirted the long line of coast it was merely one of many lofty peaks just a single feature of an impressive panorama of mountain Destruction of St. Pierre, Martinique J. Historical Guide to Saint-Pierre Martinique (Région). Bureau du patrimoine, 1987 **The Last Moon** DeAnn Lubell, 2019-08-14 On May 8 1902 Mount Pel e on the West Indies island of Martinique near the seaport town of Saint Pierre erupted in a cloud of gas and fire in one of the most awesome and destructive pyrotechnic displays ever offered by nature Four minutes later thirty thousand citizens lay dead or dying and the town was engulfed in flames Mother Nature was not entirely to blame for this disaster In truth the real culprits in this real life story were the rather more deplorable traits found in human nature Then like now if not for the dishonesty and corruption of officials who placed politics greed and racial intolerance above the welfare of the people human injustice loss of lives and immeasurable suffering could have been avoided The Last Moon remains 95 percent true to historical facts and personal testimonies The main characters are either composites of real individuals who lived in Martinique prior to the eruption or actual people who influenced the turn of events The Creole language tidal waves lava and mudflows volcanic eruptions foreign ships deadly reptiles and insects rich topography and sequence of events portrayed in the novel are all genuine and based on fact America's Diplomats and Consuls of 1776-1865 Walter Burges Smith, 1987 , *Slavery in the Caribbean Francophone World* Doris Y. Kadish, 2016

Twelve scholars representing a variety of academic fields contribute to this study of slavery in the French Caribbean colonies which ranges historically from the 1770s to Haiti's declaration of independent statehood in 1804. Including essays on the impact of colonial slavery on France, the United States and the French West Indies, this collection focuses on the events, causes and effects of violent slave rebellions that occurred in Saint Domingue, Guadeloupe and Martinique. In one of the few studies to examine the Caribbean revolts and their legacy from a U.S. perspective, the contributors discuss the flight of island refugees to the southern cities of New Orleans, Savannah, Charleston, Norfolk and Baltimore that branded the lower United States as the extremity of Caribbean culture. Based on official records and public documents, historical research, literary works and personal accounts, these essays present a detailed view of the lives of those who experienced this period of rebellion and change.

The World on Fire Murat Halstead, 1902 **La Catastrophe** Alwyn Scarth, 2002

On May 8, 1902, on the Caribbean island of Martinique, the volcano Mount Pelée loosed the most terrifying and lethal eruption of the twentieth century. In minutes it killed 27,000 people and leveled the city of Saint Pierre. In *La Catastrophe*, Alwyn Scarth provides a gripping day-by-day and hour-by-hour account of this devastating eruption, based primarily on chilling eyewitness accounts. Scarth recounts how for many days before the great eruption, a series of smaller eruptions spewed dust and ash. Then came the eruption. A blinding flash lit up the sky. A tremendous cannonade roared out that was heard in Venezuela. Then a scorching blast of superheated gas and ash shot straight down towards Saint Pierre, racing down at hundreds of miles an hour. This infernal avalanche of dark, billowing, reddish-violet fumes, flashing lightning ash and rocks crashed and rolled headlong, destroying everything in its path: public buildings, private homes, the town hall, the Grand Hotel. Temperatures inside the cloud reached 450 degrees Celsius. Virtually everyone in Saint Pierre died within minutes. Scarth tells of many lucky escapes: the ship *Topaze* left just hours before the eruption; a prisoner escaped death in solitary confinement. But these were the fortunate few. An official delegation sent later that day by the mayor of Fort-de-France reported total devastation: no quays, no trees, only shattered facades. Saint Pierre was a smoldering ruin. In the tradition of *A Perfect Storm* and *Isaac's Storm*, but on a much larger scale, *La Catastrophe* takes readers inside the greatest volcanic eruption of the century and one of the most tragic natural disasters of all time.
