Saints and Society Donald Weinstein, Rudolph M. Bell, 2010-01-15 In *Saints and Society* Donald Weinstein and Rudolph M. Bell examine the lives of 864 saints who lived between 1000 and 1700 and the perceptions of sanctity prevalent in late medieval and early modern Europe. They also provide a substantial body of information on the people among whom the saints lived and by whom they came to be venerated. In the first part the authors give close consideration to what the saints' lives reveal about childhood, adolescence, and adulthood; the impact of religious inspiration upon family bonds and family influences upon religious behavior. The second part provides a composite picture of piety and its changing configuration in Latin Christendom. With the assistance of statistical analysis, the authors answer questions involving the popular perception of holiness, social class, and gender.

The first part of the book provides an in-depth analysis of his mystical experience as a 15-year-old orphan in his hometown, Woerden, Holland, and its significance in the Dutch context. **Sainthood** Richard Kieckhefer, George D. Bond, 1990-08-09 Every major religion

exalts certain individuals who occupy a dual role On the one hand they serve as exemplars of virtue to be imitated and on the other hand they stand removed from other mortals privileged and unique Christianity knows them as saints and in the study of religion the term has been taken over and applied to similar figures in other traditions The essays in this volume analyze the role of the saint in Judaism Christianity Islam Hinduism Buddhism and Confucianism providing both a comparative and an interpretive view of sainthood The notion of sainthood is problematic in two ways First can the category be usefully applied to individuals in religious traditions other than Christianity How has it manifested itself and what differences are there in the various manifestations of sainthood Second where individuals are considered to have risen above the norms in these different traditions how is it possible to resolve the tension between the saint's imitability and his or her otherness between imitating and venerating the saint The authors consider these questions in relation to a wide range of individuals in all the major traditions

Sacred Fictions Lynda L. Coon,1997 Late antique and early medieval hagiographic texts present holy women as simultaneously pious and corrupt hideous and beautiful exemplars of depravity and models of sanctity In *Sacred Fictions* Lynda Coon unpacks these paradoxical representations to reveal the construction and circumscription of women s roles in the early Christian centuries Coon discerns three distinct paradigms for female sanctity in saints lives and patristic and monastic writings Women are recurrently figured as repentant desert hermits wealthy widows or cloistered ascetic nuns and

biblical discourse informs the narrative content rhetorical strategies and symbolic meanings of these texts in complex and multivalent ways If hagiographers made their women saints walk on water resurrect the dead or consecrate the Eucharist they also curbed the power of women by teaching that the daughters of Eve must make their bodies impenetrable through militant chastity or spiritual exile and must eradicate self indulgence through ascetic attire or philanthropy The windows the sacred fiction of holy women open on the past are far from transparent driven by both literary invention and moral imperative the stories they tell helped shape Western gender constructs that have survived into modern times
