

The background of the book cover is a composite illustration. On the left, a figure in a white robe and a wide-brimmed hat, resembling a saint, is shown from the waist up, holding a book. On the right, a muscular man in a white tunic and sandals, carrying a large bundle on his back, is walking away on a path. A bird is flying in the sky between them. The overall scene is set against a dark, starry background with a bright light source on the left.

Media Psychology 101

Christopher Ferguson, 2015-09-14. Provides an interdisciplinary overview and critical examination of how individuals are affected by mass media. There are few areas of modern social science that are as fiercely debated as media psychology. Written by one of the foremost experts on the topic, this is a concise overview of what is known and not known about how individuals are affected by and interact with various forms of mass media. The book critically examines research from cognitive, social, developmental, biological, and evolutionary approaches to psychology and addresses the interplay between media consumption and viewer behavior in such realms as advertising, body image, sex, and violence. Distinguished by its examination of research from a scientifically objective position, the book offers students not only current knowledge of media psychology but also the tools to challenge commonly held assumptions from popular advocacy and ideology. This text cuts across different psychological approaches to studying how individuals are affected by mass media and includes research from criminal justice and sociology. It considers critical debates in media psychology and how debates in science themselves can be influenced by processes such as moral panic. Written in a lively, accessible manner, the book draws upon engaging examples such as Photoshopped model controversies, dubious advertising practices, and attempts to blame violent crimes on media to illustrate scholarly principles. Throughout, data from research studies is related back to real world phenomena such as violence rates, advertising dollars spent, or changes in the news media. Written for upper level undergraduate and graduate students studying media psychology, the text will also be of value to professionals in psychology, sociology, and criminal justice as well as individuals involved in public policy as it relates to media effects. Key Features: Offers an objective interdisciplinary approach to understanding media and behavior. Draws from cognitive, social, developmental, and biological psychology as well as criminal justice research and sociology. Challenges the conclusions drawn from research to foster critical thinking. Written in a lively, accessible writing style with engaging examples grounded in research. About the Author: Christopher J. Ferguson, Ph.D., is a clinical psychologist and department chair of psychology at Stetson University in DeLand, FL. He has done extensive research on the effects of media in realms ranging from video game and television violence effects to body image to advertising effects. He has also examined how methodological issues, researcher expectancies, and questionable researcher

practices and societal pressures and incentives can create false positives in media psychology Clinically he has done extensive work with criminal justice populations including juvenile offenders adult inmates and child protective services Aside from his academic work Chris is the author of a mystery novel Suicide Kings which follows a young woman in Renaissance Florence investigating her mother's death He has also published a number of short stories mainly in speculative fiction He lives near Orlando with his wife and young son Agnon's Story Avner Falk,2018-10-22 Agnon's Story is the first complete psychoanalytic biography of the Nobel Prize winning Hebrew writer S Y Agnon It investigates the hidden links between his stories and his biography Agnon was deeply ambivalent about the most important emotional objects of his life in particular his father teacher his ailing depressive and symbiotic mother his emotionally fragile wife whom he named after her and his adopted home land of Israel Yet he maintained an incredible emotional resiliency and ability to sublimate his emotional pain into works of art This biography seeks to investigate the emotional character of his literary canon his ambivalence to his family and the underlying narcissistic grandiosity of his famous modesty Anti-Italianism W. Connell,F.
