Saints, Cure-seekers and Miraculous Healing in Twelfth-century England Ruth J. Salter, 2021 The cults of the saints were central to the medieval Church These holy men and women acted as patrons and protectors to the religious communities who housed their relics and to the devotees who requested their assistance in petitioning God for a miracle Among the collections of posthumous miracle stories miracula accounts of holy healing feature prominently and depict cure seekers successfully securing their desired remedy for a range of ailments and afflictions What can these miracle accounts tell us of the cure seekers experiences of their journey from ill health to recovery and how was healthcare presented in these sources This book undertakes an in depth study of the miraculous cure seeking process through the lens of Latin miracle accounts produced in twelfth century England a time both when saints cults particularly flourished and there was an increasing transmission and dissemination of classical and Arabic medical works Focused on shorter miracula with a predominantly localised focus and thus on a select group of cure seekers it brings together studies of healthcare and pilgrimage to look at an alternative to medical intervention and the practicalities and processes of securing saintly assistance

Sullivan,2015-09-02 Florence Nightingale is best known as a woman of action a founder of modern nursing a reformer in the field of public health and a pioneer in the use of statistics What is not generally appreciated is that Nightingale was deeply engaged in the religious and philosophical thought of her time and that the primary aim of her life was not to reform social institutions but to serve God Although Nightingale gave primacy to her spiritual life few of the books written about her have done so and until recently few of her own writings about religion have been published This failure to attend to Nightingale s spiritual life began to change during the 1980s most significantly with the 1994 publication of *Suggestions for Thought* her own presentation of her religious views At the heart of *The Friendship of Florence Nightingale and Mary Clare Moore* are forty seven letters written by Nightingale to Moore her Dearest Reverend Mother the founding superior of the Roman Catholic Sisters of Mercy in Bermondsey London ten letters written by Moore to Nightingale and five letters written by Nightingale about Clare to other Sisters of Mercy These letters illustrate the personal lives and spiritual struggles and aspirations of two highly influential women in Victorian England one working to achieve military and governmental reforms the other designing and implementing new church related services to the poor both bound together by their devotion to those who were neglected by nursing and other skills by mature Christian faith and by their engaging affection for one another *The Methodist Armor* Hilary T.
