MAGIA, HECHICERÍA Y CURANDERISMO EN EL TUCUMÁN COLONIAL

COLECCIÓN HISTORIA Y CULTURA

A partir de los expedientes judiciales del Tucumán del siglo XVIII, que registran las persecuciones y los procesos judiciales llevados a cabo contra mujeres indígenas en el Noroeste argentino, Judith Farberman examina el mundo de la magia y la hechicería de la época. En él se distinguen dos figuras importantes y antagonistas: la hechicera orientada al malicio y la curandera capaz de revertirlo. En ambas se presupone, además de un saber cualificado, una potencia misteriosa que, en el contexto de la teología criollasca, no es extraño que haya sido considerada el fruto de un pacto diabólico.

Una parte sustancial de ese poder deriva del aprendizaje, de la apropiación de conocimientos trasladados en la parlanchía, la escuela del Hechicero y también del médico, a menudo reunidos en la misma persona. El estereotipo, de perdienda cuestionaria y que traga hasta nuestras días, tiene origen español, pero es posible que las actividades de los salamanquesas se anulen con antiguas prácticas religiosas peninsulares.

En *LAS SALAMANCAS DE LORENZA*, se forja un relato vívido y sugerente de estos acontecimientos, a menudo ocultados por las narraciones dominantes de la historia. Lorenza, la India tucumana acusada junto a otras mujeres de practicar la brujería, actúa como guía para introducir a los lectores en ese universo donde la etnología recoge lo que el derecho sanciona en suspenso.

Dimas,2022-02 In 1895 after enduring two previous cholera epidemics and facing horrific hygienic conditions and the fear of another epidemic officials in the Argentine province of Tucumán described their home as the Poisoned Eden a play on its official title Garden of the Republic Cholera elicited fear and panic in the nineteenth century and although the disease never had the demographic impact of tuberculosis malaria or influenza cholera was a source of consternation that often illuminated dormant social problems In Poisoned Eden Carlos S Dimas analyzes the social political and cultural effects of three epidemics in 1868 1886 and 1895 that shook the northwestern province of Tucumán to understand the role of public health in building

the Argentine state in the late nineteenth century Through a reading of medical and ethnographic material Dimas shows that cholera became intertwined in all areas of the social fabric and that Tucumanos of all classes created public health services that expanded the state's presence in the interior In each outbreak provincial powers contended with how to ensure the province's autonomy while simultaneously meeting the needs of the state to eradicate cholera Centering disease Poisoned Eden demonstrates how public health and debates on cholera's contagion became a central concern of the nineteenth century Latin American state and promoted national cohesion
