 international conference organised by the University of Cyprus and the Cypriot Department of Antiquities was held in Nicosia
 a conference which could well be called the largest ever symposium on ancient Salamis During the three day event some 60
 scholars from many countries presented their current research on this important and spectacular archaeological site on the
 east coast of the island of Cyprus Two generations of scholars met in Nicosia during the conference an older one whose
 relationship with ancient Salamis can be characterized as very direct since many representatives of that generation had
 actively participated in the extremely productive excavations at that spot until these activities came to an abrupt end in the
 summer of 1974 due to the Turkish invasion and a younger generation which is of course lacking this very direct contact The
 conference successfully connected the older with the younger generation and thus contributed to maintaining and renewing
 the interest in ancient Salamis This richly illustrated book compiles most of the lectures presented during the conference It
 might be regarded as a tribute to Salamis an outstanding ancient city which existed for more than one and a half millennia
