Middleton* Frank James Price, 1999-03-01 Troy H Middleton 1889 1976 was the youngest colonel in the American Expeditionary Force in France during World War I Later he served as commander of the Army s 45th Division and then the VIII Corps During World War II Middleton spent more time in combat than any other general officer General Middleton made key tactical decisions in the largest and most complex military action in which the U S Army has ever been involved the Battle of the Bulge In 1951 Louisiana State University s

board of supervisors appointed Middleton president of the university He had previously served at the school as commandant of cadets professor of military science dean and vice president While president of LSU Middleton oversaw a sustained period of growth and academic achievement Like many other university presidents in the Jim Crow era throughout his tenure at LSU he also staunchly upheld his institution's deeply racist segregationist policies In this thoroughly researched biography Frank James Price tells Middleton's life story from his boyhood plantation days in Copiah County Mississippi to his public service achievements after his retirement as president of Louisiana State University in 1962 In much of the book the author through taped interviews allows Middleton to tell his own story In researching the book Price interviewed and corresponded with General Dwight D Eisenhower General Omar Bradley and other personal acquaintances of General Middleton

*The Day of Battle* Rick Atkinson, 2007-10-02 NEW YORK TIMES BESTSELLER In the second volume of his epic trilogy about the liberation of Europe in World War II Pulitzer Prize winner Rick Atkinson tells the harrowing story of the campaigns in Sicily and Italy In *An Army at Dawn* winner of the Pulitzer Prize Rick Atkinson provided a dramatic and authoritative history of the Allied triumph in North Africa Now in *The Day of Battle* he follows the strengthening American and British armies as they invade Sicily in July 1943 and then mile by bloody mile fight their way north toward Rome The Italian campaign's outcome was never certain in fact Roosevelt Churchill and their military advisers engaged in heated debate about whether an invasion of the so called soft underbelly of Europe was even a good idea But once under way the commitment to liberate Italy from the Nazis never wavered despite the agonizingly high price The battles at Salerno Anzio and Monte Cassino were particularly difficult and lethal yet as the months passed the Allied forces continued to drive the Germans up the Italian peninsula Led by Lieutenant General Mark Clark one of the war's most complex and controversial commanders American officers and soldiers became increasingly determined and proficient And with the liberation of Rome in June 1944 ultimate victory at last began to seem inevitable Drawing on a wide array of primary source material written with great drama and flair this is narrative history of the first rank With *The Day of Battle* Atkinson has once again given us the definitive account of one of history's most compelling military campaigns

**Naval Eyewitnesses** James Goulty, 2022-11-04 Goulty tells the story from the perspective of the ordinary sailor or officer who was there The Northern Mariner Although many books have been written about naval actions during the Second World War histories and memoirs in particular few books have attempted to encompass the extraordinary variety of the experience of the war at sea That is why James Goulty's vivid survey is of such value Sailors in the Royal Navy and the Merchant Navy experienced a war fought on a massive scale on every ocean of the world in a diverse range of vessels from battleships aircraft carriers and submarines to merchant ships and fishing boats Their recollections are as varied as the ships they served in and they take the reader through the entire maritime war as it was perceived at the time by those who had direct personal knowledge of it Throughout the book the emphasis is on the experience of individuals their recruitment and training their expectations and the reality

they encountered on active service in many different offensive and defensive roles including convoy duty and coastal defence amphibious operations hunting U boats and surface raiders mine sweeping and manning landing and rescue craft A particularly graphic section describes in the words of the sailors themselves what action against the enemy felt like and the impact of casualties seamen who were wounded or killed on board or were lost when their ships sank A fascinating inside view of the maritime warfare emerges which may be less heroic than the image created by some post war accounts but it gives readers today a much more realistic impression of the whole gamut of wartime life at sea Catalog of Copyright Entries.
