Conversations David Carr,2011-09-19 Cultural institutions must reimagine their roles as education facilities for their communities and address the public need for conversations in safe and fair places thereby renewing their essential place in democratic society This book explains how Open Conversations Public Learning in Libraries and Museums is a provocative book one that is designed to offer courage to cultural institution administrators and staff even as it opens their eyes to the possibility that their facilities can offer more than they are Rather than offering prescriptive answers the author invites readers to consider museums and libraries in fresh ways Author David Carr believes professionals in libraries and museums need to think more broadly He challenges them to address communities national social change psychology and learning and to think about ways to frame their institutions not as repositories or research chambers but as instruments for human thinking Now is the time for these institutions to recover their integrity and purpose as fundamental informing structures in a struggling democracy Based on lectures and previously published writings by the author and drawing on new scholarship and research the essays here will inspire professionals to understand their collections and institutions as instruments of personal social and cultural change *Personal Village* Marvin Thomas,2003-09 Your most valuable asset is the people in your life Does this sound familiar You are so busy you don t have time for your friends You get sick and no one shows up to help or express concern You want someone in your life who really cares and knows who you are You experience quick

encounters as exciting but at the end of the day you are still lonely From your family to members of your congregation to the people who deliver your mail or serve your coffee each morning every person you know every person you see is a part of your Personal Village With this insightful funny and approachable book as your guide you can master the skills of getting closer with the people around you of having people in your life by choice not by chance Too much is written about how to make money too little is written about how to strengthen our personal communities according to respected relationship therapist Marv Thomas To combat the many dehumanizing effects of 21st century life **The Troublemaker's Teaparty** Charles Dobson,2003-06-01 A wholesome manual for raising hell *Literary Salons Across Britain and Ireland in the Long Eighteenth Century* Amy Prendergast,2015-08-25 The eighteenth century salon played an important role in shaping literary culture while both creating and sustaining transnational intellectual networks Focusing on archival materials this book is the first detailed examination of the literary salon in Ireland considered in the wider contexts of contemporary salon culture in Britain and France Critical Theory Peter Uwe Hohendahl,Jaimey Fisher,2001 The retirement of the distinguished philosopher Jürgen Habermas from his chair at the University of Frankfurt signalled an important caesura in the history of Critical Theory the transition from the Habermasian project to different forms of inquiry in the work of the next generation This change over happens at a time when it has become clear that Habermas's systematic exploration of communicative rationality has reached the point where both its achievements and its limitations had become evident The essays collected in this volume address the problems connected with this transition partly by returning to the insights of the first generation Adorno and Benjamin partly by focusing on questions raised by Habermas's work Whatever the difference in the authors' positions this collection gains its unity through their common interest in the significance and value of Critical Theory today and in its future as a philosophical project **The Hinge** Gary Alan Fine,2021-02-09 Most of the time we believe our daily lives to be governed by structures determined from above laws that dictate our behavior companies that pay our wages even climate patterns that determine what we eat or where we live In contrast social organization is often a feature of local organization While those forces may seem beyond individual grasp we often come together in small communities to change circumstances that would otherwise flatten us Challenging traditional sociological models of powerful forces in The Hinge Gary Alan Fine emphasizes and describes those meso level collectives the organizations that bridge our individual interests and the larger structures that shape our lives Focusing on tiny publics he describes meso level social collectives as hinges groups that come together to pursue a shared social goal bridging the individual and the broader society Understanding these hinges Fine argues is crucial to explaining how societies function creating links between the micro and macro orders of society He draws on historical cases and fieldwork to illustrate how these hinges work and how to describe them In The Hinge Fine has given us powerful new theoretical tools for understanding an essential part of our social worlds Feminist Interpretations of Hannah Arendt Bonnie Honig,2010-11-01 *Domestic Interiors* Georgina Downey,2013-08-15 In the act of

enclosing space and making rooms we make and define our aspirations and identities Taking a room by room approach this fascinating volume explores how representations of domestic space have embodied changing spatial configurations and values and considers how we see modern individuals in the process of making themselves at home Scholars from the US UK and Australasia re visit and re think interiors by Bonnard Matisse Degas and Vuillard as well as the great spaces of early modernity the drawing room in Rossetti s house hallways in Hampstead Garden Suburb the Paris attic of the Brothers Goncourt Sch tte Lihotzky s Frankfurt Kitchen to explore how interior making has changed from the Victorian to the modern period From the smallest room the bathroom to the spacious verandas of Singapore Deco Domestic Interiors focuses on modern rooms imaged and imagined it builds a distinct body of knowledge around the interior interiority representation and modernity and creates a rich resource for students and scholars in art architecture and design history

The Stranger and the Chinese Moral Imagination Haiyan Lee,2014-11-12 In the last two decades China has become a dramatically more urban society and hundreds of millions of people have changed residence in the process Family and communal bonds have been broken in a country once known as a society of kith and kin There has been a pervasive sense of moral crisis in contemporary China and the new market economy doesn t seem to offer any solutions This book investigates how the Chinese have coped with the condition of modernity in which strangers are routinely thrust together Haiyan Lee dismisses the easy answers claiming that this moral crisis is merely smoke and mirrors conjured up by paternalistic overwrought leaders and scholars or that it can be simply chalked up to the topsy turvy of a market economy on steroids Rather Lee argues that the perception of crisis is itself symptomatic of a deeper problem that has roots in both the Confucian tradition of kinship and the modern state management of stranger sociality This ambitious work is the first to investigate the figure of the stranger foreigner peasant migrant bourgeois intellectual class enemy unattached woman animal across literature film television and museum culture Lee s aim is to show that hope lies with a robust civil society in which literature and the arts play a key role in sharpening the moral faculties and apprenticing readers in the art of living with strangers In so doing she makes a historical comparative and theoretically informed contribution to the on going conversation on China s un civil society
