Performing Female Blackness Naila Keleta-Mae, 2023-06-20 Performing Female Blackness examines race gender and nation in Black life using critical race feminist and performance studies methodologies This book examines what private and public performances of female blackness reveal about race gender and nation and considers how the land widely known as Canada shapes these performances By exploring Black expressive culture in familial literary and performance settings Naila Keleta Mae theorizes that perpetual performance forces people who are read as female and Black to always be figuratively on stage regardless of cultural political or historical contexts Written in poetry prose and journal form and drawing from the author's own life and artistic works Performing Female Blackness is ideal not only for scholars educators and students of the humanities social sciences and fine arts but also for artists and the general public too

Radical Dharma Rev. angel Kyodo Williams, Lama Rod Owens, Jasmine Syedullah, Ph.D., 2016-06-14 Igniting a long overdue dialogue about how the legacy of racial injustice and white supremacy plays out in society at large and Buddhist communities in particular this urgent call to action outlines a new dharma that takes into account the ways that racism and privilege prevent our collective awakening The authors traveled around the country to spark an open conversation that brings together the Black prophetic tradition and the wisdom of the Dharma Bridging the world of spirit and activism they urge a compassionate response to the systemic state sanctioned violence and oppression that has persisted against black people since the slave era With national attention focused on the recent killings of unarmed black citizens and the response of the Black centered liberation groups such as Black Lives Matter Radical Dharma demonstrates how social transformation and personal spiritual liberation must be articulated and inextricably linked Rev angel Kyodo Williams Lama Rod Owens and Jasmine Syedullah represent a new voice in American Buddhism Offering their own histories and experiences as illustrations of the types of challenges facing dharma practitioners and teachers who are different from those of the past five decades they ask how teachings that transcend color class and caste are hindered by discrimination and the dynamics of power shame and ignorance Their illuminating argument goes beyond a demand for the equality and inclusion of diverse populations to advancing a new dharma that deconstructs rather than amplifies systems of suffering and prepares us to weigh the shortcomings not only of our own minds but also of

our communities They forge a path toward reconciliation and self liberation that rests on radical honesty a common ground where we can drop our need for perfection and propriety and speak as souls In a society where profit rules people s value is determined by the color of their skin and many voices including queer voices are silenced Radical Dharma recasts the concepts of engaged spirituality social transformation inclusiveness and healing *Spiritual Care in an Age of #BlackLivesMatter* Danielle J. Tropical Gothic in Literature and Culture Justin D. Edwards, Sandra G.T. Vasconcelos, 2016-01-13 Tropical Gothic examines Gothic within a specific geographical area of the South of the Americas. In so doing, we structure the book around geographical coordinates from North to South and move between various national traditions of the gothic: Mexico, Argentina, Brazil, etc., alongside regional manifestations of the Gothic: the US south and the Caribbean, as well as transnational movements of the Gothic within the Americas. The reflections on national traditions of the Gothic in this volume add to the critical body of literature on specific languages or particular nations such as Scottish Gothic, American Gothic, Canadian Gothic, German Gothic, Kiwi Gothic, etc. This is significant because while the Southern Gothic in the US has been thoroughly explored, there is a gap in the critical literature about the Gothic in the larger context of the region of the South in the Americas. This volume does not pretend to be a comprehensive examination of tropical Gothic in the Americas; rather, it pinpoints a variety of locations where this form of the Gothic emerges. In so doing, the transnational interventions of the Gothic in this book read the flows of Gothic forms across borders and geographical regions to tease out the complexities of Gothic cultural production within cultural and linguistic translations. Tropical Gothic includes but is by no means limited to a reflection on a region where European colonial powers fought intensively against indigenous populations and against each other for control of land and resources. In other cases, the vast populations of African slaves were transported, endowing these regions with a cultural inheritance that all the nations involved are still trying to comprehend. The volume reflects on how these histories influence the Gothic in this region.

We Pursue Our Magic Marina Magloire, 2023-08-29 Drawing on the collected archives of distinguished twentieth-century Black woman writers such as Lucille Clifton, Audre Lorde, Toni Cade Bambara, Lorraine Hansberry, and others, Marina Magloire traces a new history of Black feminist thought in relation to Afro-diasporic religion. Beginning in the 1930s with the pathbreaking ethnographic work of Katherine Dunham and Zora Neale Hurston in Haiti and ending with the present-day popularity of Afro-diasporic spiritual practices among Black women, she offers an alternative genealogy of Black feminism characterized by its desire to reconnect with ancestrally centered religions like Vodou. Magloire reveals the tension, discomfort, and doubt at the heart of each woman's efforts to connect with ancestral spiritual practices. These revered writers are often regarded as unchanging monuments to Black womanhood, but Magloire argues that their feminism is rooted less in self-empowerment than in a fluid pursuit of community despite the inevitable conflicts wrought by racial capitalism. The

subjects of this book all model a nuanced Black feminist praxis grounded in the difficult work of community building between Black women across barriers of class culture and time

Let Spirit Speak! Vanessa K. Valdés, 2012-05-30 In this unique and groundbreaking collection writers critics historians and poets celebrate the cultural contributions of members of the African diaspora in the Western Hemisphere Beginning with the cries and prayers of Gina Athena Ulysse to the Haitian loa Erzulie in the aftermath of the earthquake in Haiti each writer in the collection engages in the recovering of the past highlighting that which has been buried in the history of time The contributors look at a wide range of artistic productions from poetry and fiction to art music and film and martial arts produced in Cuba Columbia Brazil Haiti and the United States Haitian Creole Spanish and English are brought together giving the reader a vivid sense of the multiplicity of voices in the African diaspora Rather than concentrate on the dispersion of peoples of African descent this collection focuses instead on the multiple sites of origins in the Americas as diasporic legacies are found throughout the continent
