1929-1939 , The news media have given us potent demonstrations of the ambiguity of ostensibly truthful representations of public events Jordana Mendelson uses this ambiguity as a framework for the study of Spanish visual culture from 1929 to 1939 a decade marked on the one hand by dictatorship civil war and Franco's rise to power and on the other by a surge in the production of documentaries of various types from films and photographs to international exhibitions Mendelson begins with an examination of *El Pueblo Español* a model Spanish village featured at the 1929 International Exposition in Barcelona She then discusses Buñuel's and Dalí's documentary films relating them not only to French Surrealism but also to issues of rural tradition in the formation of regional and national identities Her highly original book concludes with a discussion of the

1937 Spanish Pavilion where Picasso's famed painting of the Fascist bombing of a Basque town Guernica was exhibited along with monumental photomurals by Josep Renau. Based upon years of archival research, Mendelson's book opens a new perspective on the cultural politics of a turbulent era in modern Spain. It explores the little-known yet rich intersection between avant-garde artists and government institutions. It shows as well the surprising extent to which Spanish modernity was fashioned through dialogue between the seemingly opposed fields of urban and rural fine art and mass culture.

Queer Sexualities: Diversifying Queer, Queering Diversity Vikki Fraser, 2019-01-04. This volume was first published by Interdisciplinary Press in 2013. *Queer Sexualities: Diversifying Queer, Queering Diversity* offers an interdisciplinary approach to studies of queer sexualities. Using queer to disrupt and subvert, the chapters in this volume address a diverse range of themes and approaches to the study and articulation of queer sexuality. Through the approaches offered by ethics, activism, and politics, theology, ethnography, film, literature, and media studies, as well as geography and architecture, the chapters all work to emphasise that queer crosses borders, troubling and breaking down these borders as they go. At the heart of each of the chapters are diverse ways of looking at sexualities. The chapters disrupt the heteronormative ownership of sex and the body. In so doing, this volume offers a perspective of queer sexuality that subverts borders at the same time, highlighting the multiple ways of doing queer across times, spaces, and disciplines.

Surrealism, Politics and Culture Raymond Spiteri, Donald Lacoss, 2020-03-18. This title was first published in 2003. Drawing on literary, art, historical, and historical studies, this essay collection explores the complex encounter between culture and politics within Surrealism. The Surrealist movement was one of the first cultural movements to question explicitly the relation between culture and politics, and its attempt to fuse social and cultural revolution has been a critical factor in shaping our sense of modernity. This anthology addresses not only the contested ground between culture and politics within Surrealism itself and within the subsequent historical accounts of the movement, but also the broader implications of this encounter on our own sense of modernity. Its goal is to delineate the role of radical politics in shaping the historical trajectory of Surrealism.
