theorist Desiree Lewis and poet and feminist scholar Gabeba Baderoon have curated contributions by some of the finest writers and thought leaders into an essential resource. Radical polemic sits side by side with personal essays and critical theory coexists with rich and stirring life histories. The collection demonstrates a dazzling range of feminist voices from established scholars and authors to emerging thinkers, activists and creative practitioners. The writers within these pages use creative expression, photography and poetry in eclectic interdisciplinary ways to unearth and interrogate representations of blackness, sexuality, girlhood, history, divinity and other themes. *Surfacing* asks what do the African feminist traditions that exist outside the canon look and feel like? What complex cultural logics are at work outside the centers of power? How do spirituality and feminism influence each other? What are the histories and experiences of queer Africans? What imaginative forms can feminist activism take? *Surfacing* is indispensable to anyone interested in feminism from Africa, which its contributors show in vivid and challenging conversation with the rest of the world. It will appeal to a diverse audience of students, activists, critical thinkers, academics and artists.

Where is Creativity? Jim Shorthose, Neil Maycroft, 2017-05-12

Where is Creativity: A Multi disciplinary Approach goes beyond the orthodox image of creativity as laying inside the brain, mind to explore how and why it also emerges from relationships between people, from physical spaces such as workplaces and cities, as a result of new media technology and the Web, and due to the effects of broad contexts of the economy and industry. It explores contemporary psychological, sociological, anthropological, economic and philosophical debates concerning creativity in an accessible way which non specialist and creative practitioners can appreciate, culminating in a picture of the anatomy of creativity which seeks to provide a concrete guide to the doing of creativity to complement a deeper understanding of its nature and origins. The book will be useful for teaching staff and students, businesses and practitioners and professionals and policy makers working within a wide range of creative and innovation based industries.
