Sculptress 1st Edition Us Signed:

The Exchange Artist Jane Kamensky, 2008-01-24 The riveting story of the country's first banking scandal in the first decades of the American republic This enthralling historical narrative of the birth of speculative capitalism in America opens in the 1790s when financial pioneer turned confidence man Andrew Dexter Jr created a pyramid scheme founded on real estate speculation and the greed of banks who freely printed the paper money he needed to finance the then tallest building in the United States the Exchange Coffee House a 153 room seven story colossus in downtown Boston The story of Dexter's rise and eventual collapse offered an object lesson to the rising young nation and presents striking parallels to the subprime mortgage meltdown and looming economic collapse of today AB Bookman's Weekly, 1997 Native American and First Nation Figures in Sculpture Fred F. Poyner IV, 2025-03-28 The art of public structure is nearly as old as society itself and its figurative representations and gaps represent deep wells of insight into culture This book examines sculptors both old and new and how the work of each one has presented Native Americans and First Nations peoples as figurative subjects found throughout the public sculpture of North America over the past 200 years Offering thorough examination of artworks by 50 different sculptors throughout the United States and Canada this book profiles how artists have incorporated either traditional native styles and techniques or European artistic styles and training to create these figurative subjects in wood stone marble bronze and other materials to what degree or not they utilized indigenous models or figures photographs of individuals or other primary sources to create their sculptures how each sculpture relates to its landscape and display location and how each sculptor's own life relates to the works they have created for public viewing Both historical statuary and public sculpture that has distinctive artistic representation or styles are examined Also included are oral history interviews photographs and first hand accounts to help better understand all of these artworks Each of the sculptors profiled here reflects a mixture of gender ethnicity and nationality in their identity and backgrounds as diverse and varied a group as the subjects of their public sculpture **Finding Caspicara** Susan Verdi Webster, 2024 Caspicara was the most renowned sculptor of the eighteenth century Andean world Yet many works that are attributed to this Indigenous artist cannot be firmly documented as he is nearly absent in traditional archival records Susan Webster seeks to analyze not only the visual imagery and material culture of his many works but she also seeks to lay the foundation for understanding how scholars can revive the life and records of artists and other historical figures many of whom were Indigenous in this period with different methodologies By cultivating artistic theory popular religious devotion and specific styles of sculpture Webster's examination of the labor and workshop practices of this period contextualize the extensive commercial networks that existed within Quito and emanated beyond it Webster explores the reason why authors constructed an almost completely fictional life story and canon for this artist that continued for two centuries how this story fueled the agendas and goals of these authors in melding the colonial past with a newly independent country that could measure itself against western European culture and as a

potent story for tourists She then considers the ways in which Caspicara s work was at the center of debates of sculpture versus painting in Quito These debates and their development in the city also add context to notions of authorship and how it was documented or not By exploring the professional world where he worked Webster s analysis of Indigenous sculptors and their family networks of labor and apprenticeship in the arts allow us to understand the changing workforce and materials for sculptures This analysis also reveals what day to day life may have been for Caspicara and how this routine informed the artistic choices available to him Archival materials indirectly offer glimpses into how patrons regarded Caspicara and his work and how the work of others later embellished or altered his original vision Throughout the chapters visibility materials and reception challenge the typical obsession of art historians museum curators and auction houses in their hunger to attribute authorship in ways that increase the value both for prestige and monetary reasons and in ways that end up obscuring authorship and intent
